**Re: WT Docket No. 01-309
HAC Digital Wireless Telephones**

Fourth Semi-Annual Report

Dear Ms. Dortch:

The Filer, Kankakee Cellular L.L.C., is the licensee of Cellular Radiotelephone Service Station KNKA668. This report is submitted pursuant to the requirements of Paragraph Nos. 89 – 91 of the Commission's Report and Order (WT Docket No. 01-309), FCC 03-168, released August 14, 2003 ("R&O").¹

By way of background information, the Filer is a small, Tier III Commercial Mobile Radio Service licensee, as defined in the Commission's E-911 Order to Stay, FCC 02-210, released July 26, 2002. The Filer provides Frequency Block A cellular service to roamers in the Kankakee, Illinois MSA. The digital portion of the Filer's wireless system employs the Time Division Multiple Access ("TDMA") air interface. Upon information and belief, none of the handsets being served on the Filer's system meet a U3 (or M3) or U3T (or M3T) rating under ANSI Standard C63.19.

To achieve compliance with the Hearing Aid Compatibility ("HAC") requirements of the R&O, the Filer is literally at the mercy of the handset manufacturers to develop and market HAC-compliant digital wireless handsets. As a small, Tier III wireless carrier, the Filer has no influence over the product development and distribution decisions of wireless handset manufacturers; and, accordingly, must rely on the manufacturers to develop HAC-compliant digital wireless handsets for use on the Filer's system.

Given the foregoing, the information requested by the Commission is identified as follows:

Item 1 -- Digital Wireless Phones Tested: The Filer has not tested any digital wireless telephones for HAC compliance. All testing will be performed by the handset manufacturers.

¹ Originally filed on November 17, 2005 under the signature of counsel.

Item 2 -- Laboratory Used: None. See Response to Item 1.

Item 3 -- Test Results For Each Phone Tested: Not applicable. See Response to Item 1.

Item 4 -- Identification Of Compliant Phone Models and Ratings According To ANSI C63.19: Upon information and belief, none of the handsets receiving service on the Filer's system meet a U3 (or M3) or M3T (or M3T) rating under ANSI Standard C63.19. Upon information and belief, there are no TDMA handsets currently available that meet a U3 (or M3) or U3T (or M3T) rating under the standard.

Item 5 -- Report On The Status Of Product Labeling: None. It is anticipated that product labeling will be handled by the handset manufacturers.

Item 6 -- Report On Outreach Efforts: If necessary, the Filer will develop a hearing aid compatibility information sheet to assist the hearing impaired select a digital wireless phone model suitable to their needs.

Item 7 -- Information Related To Retail Availability of Compliant Phones: Upon information and belief, there are no TDMA handsets commercially available that meet a U3 (or M3) or U3T (or M3T) rating under ANSI Standard C63.19.

Item 8 -- Information Related To Incorporating Hearing Aid Compatibility Features Into Newer Models Of Digital Wireless Phones: The incorporation of HAC features into newer models of digital wireless telephones will be accomplished by the handset manufacturers.

Item 9 -- Any Activities Related To ANSI 63.19 Or Other Standards Work Intended To Promote Compliance With The Requirements Of The Commission's Report and Order: None.

Item 10 -- Total Numbers Of Compliant And Non-Compliant Phone Models Offered As Of The Date Of This Report: See Response to Item 7.

Item 11 -- Any Ongoing Efforts For Interoperability Testing With Hearing Aid Devices: Interoperability testing will be performed by the handset manufacturers.

Very truly yours,

Kankakee Cellular L.L.C.

Dated: 1/03/06
