

I support the move to allow a la carte satellite (Dish Network) subscription choice. We pay over \$60 for our 180 channels of which we watch less than 60. This breaks down to about 33 cents per month for each. Pricewise I would pay 50 cents each month to subscribe to only those stations which we actually watch. I would end up paying less (about 1/2) and still receive the same stations as I do now. Please provide a la carte choice option for us.

Thank you.
