

I am filing a complaint against the Incept Corporation, who I believe is a marketing company. I have received numerous phone calls during the day, only to have been hung up on when I answer the phone.

Finally, today I got a voice asking me to support an upcoming Blood Drive.

I asked the man to keep my name on a Do Not Call List, and told him to never call again.

Their phone number: 330-649-8006.

I have also received a number of calls, especially lately from other marketing companies.

I would like it to stop! My phone number is on the National Do Not Call Registry.

Thank you.
