

I PROTEST THE RM-11306 TO ALLOW WINLINK 2K USER'S (SO VERY FEW = 1% OF AMATEUR RADIO OP'S) USE IN SO MUCH SPECTRUM OF VOICE AREAS OF AMATEUR RADIO ALLOCATIONS. 1% CAN CERTAINLY WAIT SHORT PERIODS OF TIME MESSAGE DELAY. WHY DO THEY 'THINK' IS A NEED OF CLEAR CHANNEL USE FOR MOSTLY NONSENSE MESSAGE TRAFFIC FROM PRIMARILY AUTO'S AND BOATS. 20 STATIONS X 4.8KHZ EACH STATION AND INTERFEENCE NATIONALLY AND INTERNATIONALLY. ADD TO ANOTHER 20 INTERNATIONAL. THERE ARE ALREADY PLANS IN THE WORKS FOR EVERY TOWN-CITY-COUNTY-STATE TO HAVE A 'LOCAL' LINK ESTABLISHED. REPLACING "COMMERCIAL" MESSAGE HANDLING--- HMMM !! IT ALSO MUST CONSIDERED THAT INTERNATIONAL STATIONS HAVE PROPAGATION THAT WILL INTERFERE WITH NATIONAL US USER'S AND NON-WINLINK ACTIVITY DISRUPTING NORMAL AND SPECIAL TWO WAY AMATEUR RADIO STATION ACTIVITIES. IS IT EXPECTED THAT WE 99% MUST STOP ALL TRANSMITTING TO ALLOW WINLINK PRIORITY SHOULD AN EMERGENCY APPEAR. IS OUT OF LINE FROM NORMAL ACTIVITIES FOR THIS "ACTIVITY" TO EXPECT SO MUCH SPECTRUM. THEY SEEM TO BE DOING JUST A FINE JOB WITH ALLOCATIONS THEY PRESENTLY OCCUPY.
