STATEMENT

February 4, 2006

RADIO MAINTENANCE INC. has established operating procedures that ensure compliance with the Federal Communication Commission regulations regarding the protection of consumer proprietary network information ("CPNI").

- RADIO MAINTENANCE INC. is a Licensee in the PMRS radio service and therefore does not engage in the use, collection or distribution of telco calling records. RADIO MAINTENANCE INC. does not nor will it disclose any CPNI records of any kind unless ordered by law to do so.
- Any unauthorized use of, disclosure of, or the sale of customer's CPNI by an employee would be subject to immediate disciplinary action.
- Carrier maintains a record of its and its affiliates' sales and marketing campaigns that use its customers' CPNI. Carrier also maintains a record of any and all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI. The record includes a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as a part of the campaign.
- Carrier has established a supervisory review process regarding compliance with the CPNI rules with respect to outbound marketing situations and maintains records of carrier compliance for a minimum period of one year. Specifically, Carrier's sales personnel obtain supervisory approval of any proposed outbound marketing request for customer approval regarding its CPNI.
