

Reply Comments OPPOSING Petition 05-356 to Relax Part 15 Rules

I strongly agree with the comments of the ARRL and with the IEEE, and I also agree with the other comments opposing the petition of Octatron and Chang to relax the rules. They should not be given an unfair financial advantage by changing the rules late in the game. They should also not be given permission to be allowed to create even more interference with other users of the band who are following the rules.

Thank you,
Ken Hendrickson
