### Attachment 1

Coral did not provide service to public subscribers in 2005 and does not possess customer proprietary network information ("CPNI"). Consequently, (a) Coral does not use CPNI for internal marketing purposes; (2) Coral does not share CPNI with affiliates or with third parties; and, (3) Coral is not required to and does not maintain either an "opt-in" or "opt-out" system with respect to CPNI.

Coral's CPNI certifying officer, Barry Rinaldo, is familiar with the Federal Communication Commission rules governing the use of CPNI and also is the individual in the organization responsible for establishing procedures to maintain the security of the CPNI of Coral's customers. Service to the public will not be initiated and CPNI will not be gathered unless and until adequate procedures are in place to ensure compliance by Coral with the rules of the Federal Communications Commission contained in Part 64, Subpart U of the Code of Federal Regulations.
