

Recently, I gave comment asking FCC to preserve existing local franchising authority. I was speaking principally to the aspect of preserving funding of PEG channels.

Another aspect of importance to every cable subscriber: This is the proposal that resolution of complaints about local cable service be resolved at national level instead of at local level:

In our town we have a procedure set up where such complaints are locally resolved promptly and satisfactorily.

Washington DC is not an appropriate venue for resolving difficulties. I am still waiting for IRS to resolve a problem over an income tax refund due to me from back in the 1960s.
