From: Lon Diffenderfer

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

The large corporate broadcasters already have too much power in controlling what programming we have available to us and then charging whatever amount provides them the profit margin that they are wanting. No more giveaways - make sure that broadcasters serve the public interest.
