Subject: MORSE CODE

EX PARTE OR LATE FILED

DOCKET FILE: COPY ORIGINAL ORIGINAL

Please drop the Morse code requirement as was proposed by the FCC last year .I am one of many people that have a disability that prevents me from learning the code. There are many people that can't get the code not matter how hard we try, I have systemic Lupus and Scleroderma that also gave me a mild stroke . As you know the majority of Countries have already dropped the code because it has been out dated for decades. As the FCC has stated it should not be a test that blocks good people from enjoying our great hobby.

Please push to act on this as soon as possible. I have health issue's that could take my life sooner than later and I would love to be able to be on HF before than or before my blood clotting problem gives me a stroke that is worse. I know there are many things for all of you to get done but people like me need a resolution on this matter.

Thank you so much for your time,
Vincent J. Klemmer K7VIN
