office,⁵ and a number of local churches⁶. Oakwood is a community that is certainly deserving of a local FM service. "Local radio stations play an important role in their communities, providing local news, information and entertainment to residents, and generally serving as good corporate citizens in the local community life. This is particularly true in smaller towns, where the radio stations are limited in number. Yet there are still rural areas of our country that do not have even a local radio station."⁷ The proposed channel 300A will provide additional diversity and an outlet for local self-expression to Oakwood residents and therefore is in the public interest.

Should this petition be granted and Channel 300A is allotted to Oakwood, Texas, Petitioner will apply for Channel 300A at Oakwood and after it is authorized, will promptly construct the new facility.

The factual information provided in these Comments is correct and true to the best of my knowledge.
