Re: Adelphia/Comcast/Time Warner Transactions, MB Docket No. 05-192

Dear Chairman Martin:

In my capacity as Mayor of the City of Boca Raton, Florida, I am writing to urge you to approve expeditiously the applications currently pending before the Federal Communications Commission for the sale of Adelphia Communications to Comcast. For nearly four years, cable service in our community has been tainted by uncertainty because of Adelphia's bankruptcy. It is time to provide our citizens with the certainty that they deserve.

Approval of the Adelphia sale will quickly increase the availability of more advanced offerings for our citizens. Comcast will provide our community with the technologically advanced services already available in other communities, ranging from higher Internet speeds to vast libraries of video-on-demand programming and cutting edge digital video recorders. Consumers in Boca Raton also will benefit from Comcast providing another choice for telephony services. Finally, our citizens will benefit from Comcast's increased local presence. I understand that Comcast provides a great deal of local programming devoted to the unique needs and interests of its customers, and we are anxious to get that kind of commitment to localism in our community as well.

I urge you quickly to approve the Adelphia sale. The citizens of Boca Raton have waited long enough for the stability, technological advancements, and service that Comcast will bring to our community.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Steven L. Abrams", with a long horizontal flourish extending to the right.
