The Filer, Indigo Wireless, Inc. (Indigo Wireless), is the license holder of Broadband PCS Licenses WPYS971, WPYS972, WPYS973 and WPYS974. This report is submitted pursuant to the requirements of Paragraph Nos. 89-91 of the Commission's Report and Order (WT Docket No. 01-309), FCC 03-168, released August 14, 2003 ("R&O").

By way of background information, the filer is a small, Tier III Commercial Mobile Radio Service Licensee, as defined in the Commission's E-911 Order to Stay, FCC 02-210, released July 26, 2002. The filer provides Broadband PCS service in an area within the PCS BTAs and MTAs corresponding to the areas of the cellular PA-3 (Potter) and PA-4 (Bradford) RSAs. The filer's system employs GSM (Global System for Mobiles) and TDMA (Time Division Multiple Access) digital technologies. Service to home subscribers is provided only on the TDMA air interface.

The filer is exempt from the implementation requirements of the order, being covered under the *de minimus* provisions included therein in paragraph 69. Indigo Wireless offers only two handset choices to our customers, which are the Nokia 2260 and the Motorola C353. Upon information and belief, neither of the handsets offered to our customers meets a U3 rating under ANSI Standard C63.19.

- 1) **Digital Wireless Phones Tested:** Indigo Wireless has not tested any digital wireless telephones for HAC compliance. All testing will be performed by the handset manufactures.
- 2) **Laboratory Used:** None: See response to item 1.
- 3) **Test Results for Each Phone Tested:** Not applicable. See response to item 1.
- 4) **Identification of Compliant Phone Models and Ratings According To ANSI C63.19:** Upon information and belief, none of the handsets offered for sale to our customers meet a U3 (or M3) rating under ANSI C63.19.
- 5) **Report on the Status of Product Labeling:** None. It is anticipated that handset manufacturers will provide product labeling.
- 6) **Report on Outreach Efforts:** If and when, in the future, Indigo Wireless begins offering a handset model with hearing-aid compatibility, Indigo Wireless will develop point-of sale materials which will allow the customer to easily determine which model provides this compatibility, and the U-rating of the model in question.
- 7) **Information Related to Retail Availability of Compliant Phones:** Upon information and belief, there are no TDMA handsets commercially available that meet a U3 (or M3) or U3T (or M3T) rating under ANSI Standard C63.19.
- 8) **Information Related to Incorporating Hearing Aid Compatibility Features into Newer Models of Digital Wireless Phones:** Indigo Wireless has no information on this topic. This information can only be supplied by the handset manufacturers.
- 9) **Any Activities Related to ANSI C63.19 or Other Standards Work Intended to Promote Compliance with The Requirements of The Commission's Report and Order:** None.
- 10) **Total Number of Compliant and Non-Compliant Phone Models Offered as of The Date of This Report:** Compliant Phone Models: 0. Non-compliant phone models: 2
- 11) **Differences in handset offerings among regions in service areas, if any:** There are no differences in handset offerings among regions in Carrier's service area. Carrier's handset offerings are presently consistent in all markets.
- 12) **Ongoing Efforts for Interoperability Testing with Hearing Aid Devices:** None
