Re: *Semi-Annual Hearing Aid-Compatibility Report (WT Docket No. 01-309)*

Dear Ms. Dortch:

Cellular Phone of Kentucky, Inc. ("CPK") hereby submits its semi-annual Hearing Aid-Compatibility Report, pursuant to the Commission's *Hearing Aid-Compatibility Report and Order* in the above-referenced docket.¹ CPK is submitting this report in order to provide the Commission with the current status of CPK's efforts and progress it has made toward compliance with the Commission's hearing aid-compatibility requirements.

CPK is the licensee of the B1 portion of the Kentucky 6 – Madison RSA. CPK is a very small Tier III cellular carrier operating a TDMA-based cellular system covering three sparsely populated counties in the state of Kentucky. As such, it is dependent on third-party vendors, rather than handset manufacturers for its supply of handsets. Because of CPK's reliance on these third-party vendors, CPK experiences significant delays in obtaining the latest handsets.

Further, as CPK has explained in previous Commission pleadings, CPK initially planned to implement a CDMA overlay in its markets and transition those customers to CDMA technology but has since determined that due to the costs of an overlay, the rural nature of the market, and financial setbacks, such a measure is not economically viable from a business standpoint.² In light of these facts, CPK has no choice but to sell its system. To that end, CPK has engaged a broker who is actively marketing its system to potential buyers.

¹ See Section 68.4(a) of the Commission's Rules Governing Hearing Aid-Compatible Telephones, WT Docket No. 01-309, *Report and Order*, 18 FCC Rcd 16753 (2003).

² See, e.g., Petition of Cellular Phone of Kentucky, Inc. for Waiver of Section 20.19(c)(2) of the Commission's Rules, WT Docket No. 01-309 (filed Oct. 27, 2005); Interim Report of Cellular Phone of Kentucky, Inc., CC Docket No. 94-102 (filed Sept. 1, 2005); Hearing Aid Compatibility Report of Cellular Phone of Kentucky, Inc., CC Docket No. 01-309 (filed Nov. 17, 2005); Supplement of Cellular Phone of Kentucky, Inc. to Petition for Waiver of the Location-Capable Handset Benchmark Deadlines, CC Docket No. 94-102 (filed Feb. 17, 2006); Supplement of

Page 2

As the Commission is aware, no U3-rated HAC TDMA handsets are commercially available from handset manufacturers or distributors, and equipment vendors have largely discontinued TDMA products.³ Nevertheless, CPK understands that accessories such as the loop-set – a headset that plugs into a handset and is worn around the customer's neck – will facilitate usability between a TDMA handset and a hearing aid containing a telecoil. CPK offers and stocks the loop-set accessory for its subscribers. Finally, CPK will continue to monitor developments concerning HAC equipment through its contacts with its vendors and its counsel.

CPK has implemented, and will continue to undertake, the following outreach efforts: (1) CPK made available to its potential subscribers and current subscribers informational literature at its retail store(s) highlighting information regarding hearing aid-compatibility and accessories; and (2) CPK conducted training sessions for retail employees to make them familiar with CPK's handset accessory offerings.

Respectfully submitted,

WILKINSON BARKER KNAUER, LLP
