I know you're a very busy person, BUT the no-code Ham project is a simple no-brainer, please just get it passed!

As a Amateur Radio operator I have been anxiously awaiting the FCC's ruling on dropping the Morse Code requirement. When can I, and the Amateur Radio community, expect movement on this issue?

Thank You for your time.

Hi! I am a HAM radio operator, KCOVVU, and I'm disturebed that CW (morse code) might be taken of the exam for a license or an upgrade. This would endanger the U.S. by limiting emergency communications. This also squashes the tradition of Amateur Radio. I am deeply disturbed at this.
