Re: *Ex Parte* Presentation
Universal Service Assessment- Automotive Telematics
CC Docket Nos. 96-45, 98-171, 90-571, 92-237,
99-200, 95-116 and 98-170

Dear Ms. Dortch:

Today, Steve Millstein, President and Chief Executive Officer, the ATX Group, Inc., Gregory L. Rohde and I, representing the ATX Group, Inc., met with Mr. Thomas Navin, Chief of the Wireline Competition Bureau.

In the meeting, we presented the position of ATX regarding the proposal to assess each phone number a monthly fee of \$1.00. Mr. Millstein emphasized how such a fee would violate the equitable and non discriminatory standard of the law with regard to automotive telematics. The proposed fee would represent a 3000% increase over the current assessment, an amount approaching the total telecommunications cost of the service. Mr. Millstein also emphasized the confined and limited use of the network by automotive telematics which any assessment model must recognize. That the proposed assessment would disrupt an important public safety feature—the ability to locate expeditiously and dispatch aid to individuals facing an emergency, ubiquitously and without limitation-- was also discussed.

Respectfully,

Copy to:
Mr. Thomas Navin, Chief, Wireline Competition Bureau.
