**Re: Request for Waiver of Replication/Maximization Interference  
Protection Deadline, MB Docket No. 03-15, and  
Extension of Digital Television Special Temporary Authority  
KTFD-DT, Boulder, Colorado (FIN: 57219)**

Dear Ms. Dortch:

On behalf of Spanish Television of Denver, Inc. ("Spanish Television"), permittee of digital television station KTFD-DT, Boulder, Colorado, this letter hereby requests a temporary six-month extension and waiver of the July 1, 2006 replication/maximization interference protection deadline. *See* Public Notice, DA 06-1255 (rel. June 14, 2006). As discussed below, a waiver is warranted because the commencement of full-power operations has been delayed by factors beyond the licensee's control and grant of the requested waiver would be in the public interest. The station is currently operating its digital facility pursuant to Special Temporary Authority ("STA"), which expires on July 1, 2006. *See* FCC File No. BEDSTA-20060331BRA. Spanish Television is hereby requesting an extension of its STA for another six months so that the station may continue to serve the public.

As the Commission is aware, construction of digital television stations in the Denver area has been particularly challenging for station owners. KTFD-DT was prepared to complete construction of its digital television station soon after the grant of its modified construction permit. *See* FCC File No. BMPCDT-200406ACV. However, the final construction could not be completed because zoning approval had not yet been granted by the local authorities. Earlier this month, Spanish Television finally received the necessary zoning approvals and has expeditiously moved forward since obtaining those approvals to complete construction. The station has completed construction of its transmitter facility and is working on the completion of the antenna installation. However, the station will be unable to complete that installation, perform the necessary signal testing and file a covering license application, all by the July 3, 2006 filing

June 27, 2006

Page 2

deadline. Spanish Television anticipates that construction will be completed and that it will file a license application by mid-August 2006.

For the above reasons, Spanish Television submits that good cause exists to grant this waiver request. Spanish Television has diligently pursued the construction of its full-power digital facilities, but has been delayed by factors beyond its control. *See, e.g.,* Instructions, Application for Extension of Time to Construct Digital Television Broadcast Station, FCC Form 337, 2 (acknowledging that technical delays and delays in obtaining governmental clearances, such as zoning approval, are circumstances beyond a licensee's control warranting the extension of DTV construction deadlines); *see also Advanced Television Systems and their Impact Upon the Existing Television Broadcast Service, Fifth Report and Order, 12 FCC Rcd 12809, 77 (1997)* (acknowledging that a request for an extension of the construction deadline should be granted "where a broadcaster has been unable to complete construction due to circumstances that are either unforeseeable or beyond the licensee's control if the licensee has taken all reasonable steps to resolve the problem expeditiously.").

Given the licensee's good faith efforts to deploy a digital facility, the relatively short delay before it completes construction, and the importance of ensuring that viewers continue to receive digital signals, the public interest would be served by the grant of this waiver request and allowing KTFD-DT the additional time necessary to comply with the replication/maximization deadline.

This submission is accompanied by an Anti-Drug Abuse Certification, an FCC Form 159, and a check made payable to the FCC in the amount of \$150.00 to cover the requisite STA filing fee. Should there be any questions regarding this matter, please contact the undersigned.

Very truly yours,

  
Kimberly A. Lacey
