Re: Applications for Consent to the Assignment and/or Transfer of Control of Licenses of
Adelphia Communications Corp., MB Docket No. 05-192

Dear Ms. Dortch:

On July 12, 2006, Commissioner Robert McDowell initiated a telephone conversation with me regarding the above-captioned proceeding. The discussion focused on issues raised in this proceeding by TCR Sports Broadcasting Holding ("TCR"). I stressed that TCR's program carriage issues should be addressed in the program carriage complaint proceeding initiated by TCR, not this merger proceeding. I explained that TCR's issue in that proceeding has no nexus to the Adelphia transactions. Even though that proceeding has not been resolved, Comcast has stated previously and continues to believe that the Commission should act expeditiously to resolve the matter.

If you have any questions on this matter, please do not hesitate to contact me.

Respectfully submitted,

/s/ James R. Coltharp
