Re: NTT DoCoMo's Acquisition of Guam Cellular and Guam Wireless - WT Docket 06-96

Dear Chairman Martin:

I am writing to express my support for NTT DoCoMo's proposed acquisition of Guam Cellular and Paging, Inc. and Guam Wireless Telephone Company, L.L.C. As you know, telecommunications plays a critical role in our economic development. NTT DoCoMo's financial strength and technological expertise will directly benefit our island citizens through the advanced service and latest equipment in the Guam wireless industry.

NTT DoCoMo is a world leader in wireless communications, particularly in the area of advanced services and technologies. We strongly welcome their investment in our market and expect that our citizens will benefit from their investment and expertise.

NTT DoCoMo's investment in Guam telecommunications infrastructure will also benefit our tourism industry, the largest part of our economy. We had over 1.2 million visitors to Guam last year, the majority who are from Japan. A strong telecommunications network will continue to make Guam an attractive tourist destination which in turn will help make our economy grow. Thus, not only will citizens benefit from the increased access to advanced services and technologies, they will benefit from a stronger economic for Guam as well.

In sum, we welcome NTT DoCoMo's investment in our market and see it as an important development that will help strengthen our economy and enrich the lives for the citizens of Guam. Please do not hesitate to contact me should you have any questions about our government's opinion on this transaction.

Sinseru yan Magâhet,

[Handwritten signature of Felix P. Camacho]

FELIX P. CAMACHO
I Muga'lahen Guåhan
Governor of Guam

[Handwritten initials/signature and stamp]
