Notes:

(1) The legacy SBC business unit does not sell a specific wholesale product, although ISPs and other customers do purchase retail DIA products to serve their own customers. AT&T does not have historic information regarding the number of wholesale DIA customers or lines in service for the legacy SBC DIA product.

(2) The legacy SBC business unit does not track its DIA line data at the BCS sub-segment level (*e.g.*, BCS - Gem, etc.) in the West region. In order to provide further information requested by the Staff, AT&T has estimated the number of legacy SBC DIA lines in service in each of those BCS sub-segments in the West region based on its experience in the other legacy SBC regions.

Customers for Broadband Internet Services Product

The legacy AT&T business unit provides broadband Internet services to the following number of customers across the United States:

<u>Category</u>	<u>1Q2005</u>	<u>2Q2005</u>	<u>3Q2005</u>	<u>4Q2005</u>	<u>1Q2006</u>	<u>April 2006</u>	<u>May 2006</u>
