Dear Commissioners,

This is to let you know that I fully support the petition filed by TDI and other national organizations with the Federal Communications Commission (FCC) on August 14, 2006 requesting that you rescind your clarification of 8/7/06 regarding captioning of emergency announcements on TV.

Given that the local broadcasters in the top 25 television markets currently have real-time closed captioning capabilities, and provide captions routinely for their local news shows, I fully expect them to provide closed captioning for all breaking news, including emergency announcements that are broadcast to their viewers.

For example, if I live in Texas, and there is a tornado, I would want my local TV station to tell me using closed captions when the tornado is about to strike, its current direction and speed, immediate action to take, and when it is safe to go outside again.

Closed captioning gives me many more details, nearly equal to what is audible. While visual information is welcome via other methods, such as crawls, signs, and graphics, the information that they convey is limited, and this can endanger my life, health, and safety, and property during an emergency. My survival needs are equally important to those of others in the community.

I support TDI's request that the FCC withdraw its August 7, 2006 clarification notice, and continue to maintain its effective enforcement of its current 79.2 regulations on emergency information broadcasts. Human lives are precious, and access to safety information is a vital American right!

Thank you for your consideration,

Sincerely,

Earl Krone

Please remove the clarification regarding emergency announcements issued on 8/7/06. As a hearing impaired person these captioned notes:

- 1.. help me understand safety instructions better.
- 2.. help me develop and carry out your emergency plans together with confidence and include all family members.
- 3.. and finally I always watch television with captions and want to continue to do so in an emergency. Sincerely,

Rich Maier
