RE: Alaska Certification of Support for Rural and Non-Rural High-Cost Carriers Pursuant to 47 C.F.R Sections 54.313-314, CC Docket Nos. 96-45 and 00-256

Dear Ms. Dortch and Ms. Majcher:

The Regulatory Commission of Alaska (Alaska Commission) hereby certifies that to the best of our knowledge and belief, all federal high cost support provided to rural economically regulated carriers in this state will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with section 254(e) of the Communications Act of 1934, as amended. This includes High Cost Loop (HCL) support and Local Switching Support (LSS), and high cost support received pursuant to the purchase of exchanges. No companies in Alaska receive High Cost Model (HCM) support.

Below is a list of rural carriers certified as Eligible Telecommunications Carriers by the Alaska Commission pursuant to sections 54.314 of the FCC's rules (47 C.F.R. § 54.314), which require states to establish an annual certification process for rural carriers receiving federal high cost support. As requested by the Universal Service Administrative Company, listed beside each carrier is its assigned study area code (SAC), if known.

Our agency does not economically regulate the Arctic Slope Telephone Association Cooperative, Inc., Bristol Bay Telephone Cooperative, Inc., Circle Telephone, Cordova Telephone, Ketchikan Public Utilities, and Nushagak Electric and Telephone Cooperative. Our certification does not cover non-regulated wireline service areas and each carrier is responsible for self-certifying its compliance with Section 54.314(b) for such areas.

We have included wireless ETCs on our list of carriers even though these carriers are not economically regulated by the Alaska Commission. We have done so as we directed the companies to file annual certifications with us concerning their use of funds and we plan to regularly review their responses in this area. These companies should be filing individual certifications with the FCC concerning the use of funds by a non-regulated entity.

Our certification does not preclude us from reviewing in further detail how any carrier has employed its federal universal service funds and ordering that use of funds comply with our directives or policies. Our decision does not bind us in future or pending rate cases and we reserve the right to conclude that a company should employ its universal service funding differently than it does today or in the future in light of better data or a more detailed review.

Sincerely,

REGULATORY COMMISSION OF ALASKA
