Susan M. Baldwin is presently an independent consultant to public sector agencies. Ms. Baldwin has been actively involved in public policy for twenty-eight years, twenty-two of which have been in telecommunications policy and regulation. Ms. Baldwin received her Master of Economics from Boston University, her Master of Public Policy from Harvard University's John F. Kennedy School of Government, and her Bachelor of Arts degree in Mathematics and English from Wellesley College.

Ms. Baldwin has extensive experience both in government and in the private sector. Since 2001, Ms. Baldwin has been advising and testifying on behalf of public sector agencies as an independent consultant. Recently, she has testified on behalf of the New Jersey Division of Rate Counsel in several major proceedings including Verizon's acquisition of MCI, SBC's acquisition of AT&T, and Sprint's spin-off of its local operations. Ms. Baldwin has also assisted the Rate Counsel in preparing comments in diverse Federal Communications Commission proceedings.

Also in her capacity as an independent consultant, she provided comprehensive technical assistance to the Massachusetts Department of Telecommunications and Energy (DTE), serving as a direct advisor in a comprehensive investigation of recurring and nonrecurring costs for unbundled network elements (UNEs). She sponsored testimony in a numbering resource and virtual "NXX" proceeding on behalf of the Iowa Office of Consumer Advocate; on UNE cost studies on behalf of the Illinois Citizens Utility Board; on Qwest's petition to reclassify certain services as competitive on behalf of the Attorney General of the State of Washington; on Verizon's requests to raise basic local exchange rates and to reclassify small business local exchange service as competitive, on behalf of the New Jersey Division of Rate Counsel, and on CenturyTel's request to raise rates on behalf of the Arkansas Attorney General's Office.

Ms. Baldwin also worked on behalf of consumer advocates in the state *Triennial Review Order* ("TRO") proceedings. She prepared comprehensive testimony analyzing mass market impairment on behalf of the New Jersey Division of Rate Counsel, the Arkansas Office of the Attorney General, and the Utah Committee of Consumer Services. Testimony was not filed in Arkansas or Utah because of the DC Circuit Court ruling in *USTA v. FCC*, which caused these states to postpone their investigations of impairment. Ms. Baldwin also prepared detailed affidavits on behalf of the New Jersey Division of Rate Counsel and on behalf of the Utah Committee of Consumer Services, which were submitted in the Federal Communication Commission's rulemaking proceeding on network unbundling.

Ms. Baldwin has testified before the Arkansas Public Service Commission, California Public Utilities Commission, Colorado Public Utilities Commission, Connecticut Department of Public Utility Control, Idaho Public Utilities Commission, Illinois Commerce Commission,

Indiana Utility Regulatory Commission, Iowa Utilities Board, Massachusetts Department of Telecommunications and Energy, Nevada Public Service Commission, New Jersey Board of Regulatory Commissioners, Public Utilities Commission of Ohio, Rhode Island Public Utilities Commission, Tennessee Public Service Commission, Vermont Public Service Board, and Washington Utilities and Transportation Commission. Ms. Baldwin has also authored numerous comments submitted in various Federal Communications Commission proceedings.

She has also participated in projects in Delaware, the District of Columbia, Hawaii, Illinois, New York, Pennsylvania, and Canada on behalf of consumer advocates, public utility commissions, and competitive local exchange carriers. Ms. Baldwin has served in a direct advisory capacity to public utility commissions in the District of Columbia, Massachusetts, New Mexico, Utah and Vermont. Ms. Baldwin has also testified on behalf of public utility commission staff in Idaho and Rhode Island.

Ms. Baldwin worked with Economics and Technology, Inc. for twelve years, most recently as a Senior Vice President. Among her numerous projects were the responsibility of advising the Vermont Public Service Board in matters relating to a comprehensive investigation of NYNEX's revenue requirement and proposed alternative regulation plan. She participated in all phases of the docket, encompassing review of testimony, issuance of discovery, cross-examination of witnesses, drafting memoranda and decisions, and reviewing compliance filings. Another year-long project managed by Ms. Baldwin was the in-depth analysis and evaluation of the cost proxy models submitted in the FCC's universal service proceeding. Also, on behalf of the staff of the Idaho Public Utilities Commission, Ms. Baldwin testified on the proper allocation of US West's costs between regulated and non-regulated services. On behalf of AT&T Communications of California, Inc. and MCI Telecommunications Corporation, Ms. Baldwin comprehensively analyzed the non-recurring cost studies submitted by California's incumbent local exchange carriers.

Ms. Baldwin served as a direct advisor to the Massachusetts Department of Telecommunications and Energy (DTE) between August 2001 and July 2003, in Massachusetts DTE Docket 01-20, an investigation of Verizon's total element long run incremental cost (TELRIC) studies for recurring and nonrecurring unbundled network elements (UNEs). She assisted with all aspects of this comprehensive case in Massachusetts. Ms. Baldwin analyzed recurring and nonrecurring cost studies; ran cost models; reviewed parties' testimony, cross-examined witnesses, trained staff, met with the members of the Commission, assisted with substantial portions of the major orders issued by the DTE; and also assisted with the compliance phase of the proceeding.

Ms. Baldwin has participated in numerous investigations of the impact of proposed mergers of telecommunications carriers on consumers. Most recently, Ms. Baldwin sponsored testimony and declarations on behalf of the New Jersey Division of Rate Counsel on Verizon's acquisition of MCI, SBC's acquisition of AT&T, and AT&T's acquisition of BellSouth. During the 1990s, Ms. Baldwin also sponsored testimony on behalf of the Nevada Bureau of Consumer Protection on the proposed merger of Sprint and WorldCom; sponsored testimony on behalf of

the Office of Ratepayer Advocates (ORA) of the California Public Utilities Commission and also on behalf of the Washington Office of Attorney General in their respective investigations of the proposed merger of Bell Atlantic Corporation and GTE Corporation; co-managed assistance to the Hawaii Division of Consumer Advocacy in the analysis of the proposed BA/GTE merger; sponsored testimony on behalf of the Ohio Consumers' Counsel and the Indiana Office of Utility Consumer Counselor on the SBC/Ameritech merger; co-sponsored testimony on behalf of the Connecticut Office of Consumer Counsel on the impact of SBC's acquisition of SNET on consumers; co-authored affidavits submitted to the FCC on behalf of consumer coalitions on the SBC/Ameritech and BA/GTE mergers; and co-managed a project to assist the ORA analyze the California Public Utilities Commission's investigation of the merger of Pacific Telesis Group and SBC Communications.

Ms. Baldwin has contributed to the development of state and federal policy on numbering matters. On behalf of the Ad Hoc Telecommunications Users Committee, Ms. Baldwin participated in the Numbering Resource Optimization Working Group (NRO-WG), and in that capacity, served as a co-chair of the Analysis Task Force of the NRO-WG. She has also provided technical assistance to consumer advocates in the District of Columbia, Illinois, Iowa, Massachusetts, and Pennsylvania on area code relief and numbering optimization measures. Ms. Baldwin also co-authored comments on behalf of the National Association of State Utility Consumer Advocates in the FCC's proceeding on numbering resource optimization.

During her first years at ETI, Ms. Baldwin was the Director of Publications and Tariff Research, and, in that capacity, she trained and supervised staff in the analysis of telecommunications rate structures, services, and regulation.

Ms. Baldwin served four years as the Director of the Telecommunications Division for the Massachusetts Department of Public Utilities (the predecessor to the DTE), where she directed a staff of nine, and acted in a direct advisory capacity to the DPU Commissioners. (The Massachusetts DTE maintains a non-separated staff, which directly interacts with the Commission, rather than taking an advocacy role of its own in proceedings). Ms. Baldwin advised and drafted decisions for the Commission in numerous DPU proceedings including investigations of a comprehensive restructuring of New England Telephone Company's rates, an audit of NET's transactions with its NYNEX affiliates, collocation, ISDN, Caller ID, 900-type services, AT&T's request for a change in regulatory treatment, pay telephone and alternative operator services, increased accessibility to the network by disabled persons, conduit rates charged by NET to cable companies, and quality of service. Under her supervision, staff analyzed all telecommunications matters relating to the regulation of the then \$1.7-billion telecommunications industry in Massachusetts, including the review of all telecommunications tariff filings; petitions; cost, revenue, and quality of service data; and certification applications. As a member of the Telecommunications Staff Committees of the New England Conference of Public Utility Commissioners (NECPUC) and the National Association of Regulatory Utility Commissioners (NARUC), she contributed to the development of telecommunications policy on state, regional, and national levels.

Ms. Baldwin has worked with local, state, and federal officials on energy, environmental, budget, welfare, and telecommunications issues. As a policy analyst for the New England Regional Commission (NERCOM), Massachusetts Department of Public Welfare (DPW), and Massachusetts Office of Energy Resources (MOER), she acquired extensive experience working with governors' offices, state legislatures, congressional offices, and industry and advocacy groups. As an energy analyst for NERCOM, Ms. Baldwin coordinated New England's first regional seminar on low-level radioactive waste, analyzed federal and state energy policies, and wrote several reports on regional energy issues. As a budget analyst for the DPW, she forecast expenditures, developed low-income policy, negotiated contracts, prepared and defended budget requests, and monitored expenditures of over \$100 million. While working with the MOER, Ms. Baldwin conducted a statewide survey of the solar industry and analyzed federal solar legislation.

Ms. Baldwin received Boston University's Dean's Fellowship. While attending the Kennedy School of Government, Ms. Baldwin served as a teaching assistant for a graduate course in microeconomics and as a research assistant for the school's Energy and Environmental Policy Center, and at Wellesley College was a Rhodes Scholar nominee. She has also studied in Ghent, Belgium.

Statement of Qualifications of Sarah M. Bosley

SARAH M. BOSLEY
107 Oxpens Road
Cary, NC 27513
617.909.1724
sbosley@nc.rr.com

Sarah M. Bosley is presently providing consulting services to public sector agencies as an independent consultant. Ms. Bosley has six years of experience in telecommunications economics, regulation, and public policy. Ms. Bosley earned her Master of Science in Agricultural and Applied Economics from Virginia Tech, her Master of Arts in International Affairs from American University, and her Bachelor of Arts in Political Science from McGill University.

Ms. Bosley worked with Economics and Technology, Inc. for over four years, most recently as a Consultant. In her capacity as an independent consultant and, previously, as Consultant and Senior Analyst, Ms. Bosley conducts economic analysis and research and contributes to expert testimony in numerous state and federal regulatory proceedings. She has contributed to and co-authored reports to state commissions, white papers, and comments and declarations filed in Federal Communications Commission (“FCC”) proceedings. Ms. Bosley’s experience includes the analysis of a broad range of public policy issues, including: numbering optimization and area code relief; intercarrier compensation; access charges; federal universal service policy; the impact of mergers on consumers; applications for section 271 authority; local competition; unbundled network elements and interconnection agreements; alternative regulation, price cap plans, and total factor productivity.

Ms. Bosley has substantial experience in the evaluation of state and federal regulation of incumbent local exchange carriers. She analyzed proposals in the FCC’s Price Cap Performance Review and Access Charge Proceedings. With regard to state proceedings, Ms. Bosley participated in the preparation of expert testimony evaluating the incumbent local telephone company’s (“ILEC”) proposed plan for alternative rate regulation or reclassification of services as competitive in Connecticut, New Jersey, Illinois, Pennsylvania, Massachusetts, and Utah. She has modeled the effects of varying “X-factors” on a carrier’s earnings and utilized numerous methods for determining productivity growth factors to be used in an ILEC’s price cap plan. She has also contributed to testimony addressing local exchange market structure and the impact of alternative regulation plans on consumers. Ms. Bosley co-authored a study for the Wisconsin Public Service Commission regarding productivity for local exchange carriers in Wisconsin. Most recently, Ms. Bosley provided assistance to a state consumer advocate regarding the incumbent local exchange carrier’s requests to raise basic local exchange rates and to reclassify small business local exchange service as competitive. She is currently providing assistance to a state consumer advocate in response to an incumbent request for pricing flexibility.

Ms. Bosley has participated in numerous regulatory proceedings addressing the implementation of the Telecommunications Act of 1996. She was a member of project teams that analyzed the incumbent’s application for section 271 authority to provide long distance

services in Pennsylvania and Minnesota. In Minnesota, her work concentrated on Qwest's operations support systems capabilities and a statistical analysis of performance testing results. Ms. Bosley was actively involved in several state proceedings addressing local exchange competition policies and interconnection arrangements between incumbent local exchange providers and new market entrants, including a proceeding in New Jersey to set unbundled network element policy and rates and work on behalf of a new entrant in arbitration proceedings in Nevada, California, Georgia, Ohio, Pennsylvania, and New York.

Ms. Bosley's work has also included the evaluation of telecommunications mergers. On behalf of state consumer advocates in California, Hawaii, and Washington, she examined the effect of the proposed merger between Bell Atlantic Corporation and GTE Corporation on competition in the local telecommunications market, including the quantification of projected merger synergies to be shared with ratepayers. On behalf of the consumer advocate in Indiana, Ms. Bosley analyzed the impact of the merger between SBC Communications and Ameritech Corporation on local exchange competition, infrastructure investment, and service quality. Ms. Bosley assisted the New Jersey Rate Counsel in its review of both the proposed merger of SBC Communications, Inc. and AT&T Corp. and the proposed merger of Verizon Communications and MCI, Inc. Ms. Bosley co-authored a declaration on behalf of the New Jersey Rate Counsel in the FCC's review of the proposed merger between Verizon Communications and MCI, Inc. and in the FCC's review of the proposed merger between AT&T Inc. and BellSouth Corporation.

Ms. Bosley has been actively involved in several FCC proceedings examining its Universal Service programs and policies. Her work includes co-authoring comments on behalf of a user's group regarding proposals to expand the definition of universal service to include, among other things, the provision of advanced services. More recently, she assisted a state consumer advocate in its preparation of comments regarding proposals to reform the management and administration of the Universal Service Fund and the rural High Cost program and an analysis of the implications of the Qwest II court decision for the non-rural High Cost program.

Ms. Bosley's consulting experience also includes participation in the FCC's evaluation of its inter-carrier compensation and special access regimes and analysis of access charge reform proposals at both the state and federal levels. Over the past year, this work has focused on the impact of new technologies on the regulation of the telecommunications industry. For example, she took an active role in the preparation of comments analyzing the access charge treatment of IP-enabled calls; access to emergency services for Internet-based forms of Telecommunications Relay Service; and the development of a consumer protection framework for customers of broadband internet access services.

Ms. Bosley has developed extensive knowledge of numbering optimization measures both at the federal and state levels. She has contributed to and co-authored a number of rounds of comments filed on behalf of consumer advocates and users groups in the Federal Communications Commission's numbering optimization docket. She contributed to initial and reply statements of position on behalf of the Iowa Office of the Consumer Advocate regarding

area code relief and numbering conservation measures in Iowa, and provided technical assistance to the District of Columbia Office of People's Counsel regarding number conservation measures.

Ms. Bosley received the Driscoll Award for Outstanding Research for her master's thesis, which compared welfare reform outcomes in non-metropolitan communities to those in metropolitan communities. This work included the development and econometric estimation of a labor supply model used to identify barriers to participation in the labor market for female household heads. Ms. Bosley was also employed as Graduate Research Assistant for the Department of Agricultural and Applied Economics at Virginia Tech while pursuing her studies.

Statement of Qualifications of Timothy E. Howington

Timothy E. Howington
46 Princeton Street
East Boston, MA 02128
617-561-7015
thowington@verizon.net

Timothy E. Howington provides consulting services to public sector agencies. Mr. Howington has three years experience analyzing the intersection of the telecommunications industry and public policy. He earned a Master of Arts in Economics from Boston University, and a Bachelor of Arts from the University of Chicago.

Mr. Howington has contributed to numerous comments, affidavits, and briefs in state and federal regulatory proceedings on behalf of consumer advocates in Washington, Utah, New Jersey, and New Hampshire.

Mr. Howington has analyzed market share data and conducted concentration analyses, examined the entry by competitive local exchange carriers into local markets, researched the evolution of intermodal competition, and investigated the deployment of broadband infrastructure. Mr. Howington has also conducted research on numerous other telecommunications issues such as net neutrality, special access pricing, high-cost universal service support, intercarrier compensation reform, and quality of service. Mr. Howington has contributed to comments and briefs relating to the mergers of MCI and Verizon, SBC and AT&T, and Sprint and Nextel. He has also contributed to comments and briefs addressing requests for alternative regulation of telecommunications services, petitions for forbearance, and rate restructuring proceedings. In addition, Mr. Howington has researched ancillary issues such as executive compensation and severance benefits.

From 2001 to 2003 Mr. Howington led research efforts at Massachusetts Development Finance Agency, Massachusetts' quasi-public economic development authority. As part of his work there, Mr. Howington published monthly economic briefings; researched and wrote reports on industries important to the state's economy (e.g. biotechnology, medical device manufacturing, plastics); created location cost comparisons; evaluated tax structures, incentive programs, and financing tools; and performed an impacts analysis for a major redevelopment project. He also served as a research facilitator, coordinating research efforts with other government and industry organizations, such as Massachusetts Alliance for Economic Development, Massachusetts Biotechnology Council, Boston Redevelopment Authority, and Massachusetts Technology Collaborative.

Prior to his career in economics, Mr. Howington was involved in the development of tools designed to aid in language preservation, language pedagogy, and linguistic analysis.
