Petition for Exemption from Closed Captioning Requirements

Introduction

The First United Methodist Church was built in 1901 and located at 201 Monroe Street in Jefferson City, Missouri. Although the address has remained the same, it has continued to grow and expand. The Carson Annex was added in the 1950s and in 1984 the Christian Life Center was added, a multi-purpose, activity room with a full court basketball and volleyball area.

First United Methodist Church is located three blocks east of the State Capitol building in Jefferson City. The city has a population of approximately 40,000. The location of the church in the Capitol City gives it a unique blend of visitors and members from all across the political spectrum.

The mission of First United Methodist Church is To Worship God – To Make Disciples – To Serve our Neighbors, “as together we experience and proclaim the transforming love of Jesus Christ.”

The television ministry program of First United Methodist Church is called “Celebration of Worship.” This quality program airs the previous week’s sermon, musical selections and occasional promotional pieces about various church ministry programs. “Celebration of Worship” works to achieve the church’s mission by reaching

out and spreading the word of God to those in the Jefferson City and surrounding areas who cannot physically attend worship services for varying reasons.

Each "Celebration of Worship" program is 28 minutes and 57 seconds long and airs each Sunday at 10:00 a.m. on the local CBS affiliate, KRCG-TV 13 (channel 16 on local cable). The program is produced and edited by a dedicated group of volunteers with input from a part-time church staff member. Volunteers work as a team on Sunday mornings to video the 8:30 a.m. and 10:50 a.m. worship services each week. Another team then meets during the week to edit and produce the 30-minute program to air the following Sunday. KRCG-TV 13 is the top rated television station in the market and has a strong viewership of men and women from 18 to 49 years of age. The church is also aware, through numerous and various forms of correspondence, that the "Celebration of Worship" program is watched by nursing home residents as well as hospital patients and the home-bound and elderly population.

For the reasons set forth below, First United Methodist Church of Jefferson City, Missouri hereby requests an undue burden exemption from the closed captioning rules for its "Celebration of Worship" program, pursuant to 79.1(f) of the Commission's rules.

Nature and Cost of Closed Captions

Due to the fact that KRCG-TV 13 did not inform us of the requirement for close captioning until Wednesday, November 23, 2005, the effort to find appropriate solutions to meet the requirement is recent. In this recent effort to determine the cost of closed captioning for the "Celebration of Worship" program, several phone calls were made to the company that sold us the equipment we use to video and produce the show (VMI Company of St. Louis), as well as a company VMI recommended called CPC, Computer,

Prompting and Captioning Co. Through those many conversations it was determined that the software needed for the equipment we currently use is a product from CPC called 700NL. This product provides the script preparation, encoding and time-coding software needed to prepare caption and subtitle files from a video file on the computer hard drive. [See Exhibit A]

The national United Methodist Church Igniting Ministries office was also contacted and the production team shared information about closed captioning assistance from a company called CaptionLink.com. They do not provide software, but do provide services to assist with closed captioning encoding. I have requested more information from CaptionLink.com, however it had not arrived prior to the submission of this petition. [See Exhibit B]

An option of scrolling open captioning using the character generator designer in the current computer system was ruled out due to the extensive amount of text, creating unstableness in the software program. It was also determined that this form of open captioning would lessen the quality of the program for the viewers and we would not be able to continue to use the character generator for identifying speaker, messages and music pieces. It would also be extremely time intensive for the dedicated volunteers in the television ministry. At this time, the cost to use open captioning for physical labor of three (3) to five (5) hours is approximately \$45 to \$75 a week. However, eventually, it would also require the purchase of new software for the system in the near future, (NewTek – VT 4.5 software and a new board for the computer is currently priced at approximately \$6,000 according to Mr. Dave Rauth, Jr. at VMI Company in St. Louis.)

Impact on the Operation of the Program Provider

The total cost to produce the “Celebration of Worship” program each year is approximately \$40,000. [See Exhibit C] Each week KRCG-TV 13 charges \$585.00 to air the program. [See Exhibit D] The church has conservatively estimated that it would cost at least an additional \$181.00 a week to add closed captioning to the program. Increasing the cost of the program by a minimum of \$9,412.00 a year would jeopardize the continuation of the entire television ministry at First United Methodist Church, Jefferson City, Missouri.

Financial Resources of the Program Provider

First United Methodist Church, Jefferson City, Missouri is a tax-exempt organization according to Internal Revenue Service. [See Exhibit E] The “Celebration of Worship” program is funded mainly by contributions. [See Exhibits F through K] When the television ministry first began in 1983, a promise was made to the largest contributor that the program would never solicit television viewers for money for the church and/or specifically the television ministry.

In order to fund any increase of this magnitude, other vital First United Methodist Church programs would necessarily suffer. These programs are funded almost entirely by donations which are voluntary and difficult to predict. There is no extra money in the church budget to cover this type of unforeseen cost.

Notification of the closed captioning regulation came from KRCG-TV 13 in late November 2005. The only suggestion offered by the Programming Manager, Mr. Lee Gordon, was open captioning through the character generator. However, as described

above, this is not a viable option. Mr. Gordon did pass along information about the program exemptions for local, non-news programming, which is why this petition was submitted.

Types of Operations of the Program Provider

First United Methodist Church is a non-profit religious institution providing Christian education for all ages, worship, music, mission opportunities (local, state, national and international), and a television ministry to reach those who are unable to worship at the church location.

Other factors

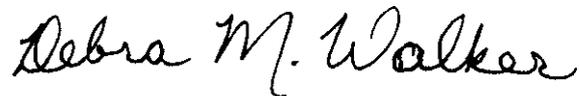

As a petitioner, First United Methodist Church believes that the local, non-news exemption to the closed captioning rules also applies to the “Celebration of Worship” program. As noted above, the program is produced and distributed locally, and the messages of First United Methodist Church are of primarily local public interest. The episodes are not news, they do not have repeat value, and the electronic newsroom technique is not available. Notwithstanding the applicability of the exemption, we have filed this petition in abundance of caution and for the purpose of establishing certainty.

Conclusion

As shown by this petition and its attachments, the Commission should grant a waiver of the closed captioning requirements in this case, because requiring closed captioning would create an undue burden. The costs of captioning would be excessively high and would have a significant impact on First United Methodist Church’s operations.

First United Methodist Church's type of operations and financial resources are different in kind and magnitude from a mainstream programming provider. Because of the significantly difficulty and expense of providing closed captions, a waiver under § 79.1 (f) is warranted. If more information is needed, please contact me at the address provided below.

Respectfully submitted,

A handwritten signature in black ink that reads "Debra M. Walker". The signature is written in a cursive style with a large, prominent "D" and "W".

The CPC CaptionMaker Series

Screen shot of CPC-700

Software Comparison

Caption Preparation & Encoding Software

CPC-500: Realtime captioning using speech recognition, a steno machine or speed typing software.

CPC-600: All CPC-500 features, plus script preparation without timecode. Users can import a script, break it into captions, and position captions. When encoding, start the tape and send one line at a time manually at the touch of a key.

CPC-700: All CPC-600 features, plus script preparation using timecode. Users can assign a timecode to each caption at the touch of a key. When encoding, start AutoSync and the captions are sent out automatically, in perfect synchronization with the video.

CPC-700NL: All the features of the CPC-700, plus the ability to prepare caption and subtitle files using time code from a video file on your hard drive.

CPC-700NLE: Includes all the features of the CPC-700NL plus patented encoding software to caption video on non-linear editing systems such as Avid and Media100. No closed caption encoder hardware is required. Additionally, CPC's built-in software character generator lets you subtitle any digital video using only your computer!

Encoding Only Software

CPC-710: Encoding with a hardware line 21 encoder. It accepts multiple captioning file formats and includes our popular AutoSync feature, but it does not allow for script preparation.

CCaption-DV: Specialized encoding only software designed for inserting closed captions directly into digital video files. No hardware encoder is needed. The user imports a high quality video file and a prepared caption file and the CCaption-DV will automatically insert the captions into your file, without generation loss.

CCaption-NLE: Includes all the features of the CCaption-DV plus patented encoding capabilities for specific non-linear editing systems such as Avid and Media100. Using only a caption file, the CCaption-NLE can prepare a blank video file with line 21 data only to be interlayered in a non-linear editing system.

Why Choose CPC?

The Captioning Industry leader since 1986

- CPC knows captioning

20 years of software upgrades

- CPC software will never become obsolete

17 years of caption service experience

- CPC's experience means quality

Thousands of satisfied customers

- CPC is known for high quality at a fair price

Awards

- SBA Administrator's Award for Excellence
- Distinguished Vendor of Accessible Technology Award, presented by the U.S. Department of Commerce

To caption or subtitle a DVD, you need a DVD authoring system in addition to the CPC-700NL software. CaptionMaker can export appropriate caption/subtitle files the file is exported to your DVD authoring system, which then inserts captions or subtitles onto the DVD. The CPC-700NL supports all major DVD authoring systems. You do not need a closed caption encoder or a character generator.

added to a video
existing captions

Webcast captioning

You can caption both existing videos and live productions on the Web with the CPC-700NL. To caption an existing video, which is known as a Video-on-Demand Webcast, the process is the same as that described earlier up to the point of AutoSync. Instead of AutoSync, the CaptionMaker exports a caption file for your Webcast. The CaptionMaker can create files for all three video players: Windows Media Player, RealPlayer, QuickTime and Flash.

Why CPC is the Smart Choice

"The software is friendly. We were captioning the data received our system. Kevin Reeve Utah State University

Bulk Discount: Discounts are offered for multiple software purchases.

Customer Support

Free 5 hours of phone support is provided for 12 months from the date the software was purchased; and 2 hours of free phone support for 6 months from the date a software upgrade was purchased. The following plan picks up when that free support ends.

Number of years	Price
1 Year (5 hours)	10% of the current price of the software
2 Year (10 hours)	18% of the current price of the software
3 Year (15 hours)	24% of the current price of the software
4 Year (20 hours)	28% of the current price of the software
Lifetime (Unlimited)	30% of the current price of the software

Deduct 15% from above prices if the above Support Plan is purchased at time of software purchase.

Pay as You Go Plan: If you do not like to purchase a yearly plan, or you have used up your hours allocated in your yearly support, you can always purchase our minute plan \$3.00/minute. This will be billed at the time support is given.

Telephone Support Contracts

In addition to our quickly growing base of technical support documents, CPC also offers telephone support.

- New and Existing customers
- Support Contract

System Requirements

Post-Production Captioning

- A Windows 98/2000/XP/NT Computer
(Recommended requirement is 1 GHz, 512 MB of memory. For CPC-700NLE, a faster computer with more memory will give better results)
- Minimum 1 serial port required to communicate with a CC encoder.
- Any video display device like a Dazzle DVC-80 (external) or an ATI VGA Wonder Pro card (internal) to see video on the computer screen.
- A Time Code Reader to read time code or external USB box (for CPC-710 and CPC-700/700NL/700NLE only)

Realtime Captioning

- A Windows 98/2000/XP/NT Computer
(Recommended requirement is 1.5 GHz, 1 GB of memory.)

EXHIBIT B

Debbie,

We are a caption service and will be happy to work with you if you need us to close caption your masters to be compliant with the FCC regulations. We do not provide software however so can not help you with that aspect.

We work with various post houses to provide "caption files" for them to encode in-house. This approach will greatly reduce your caption expense and the time you would have to dedicate to transcribing and setting up the caption files, approximately 5-7 hours per 30-minute program.

Please let me know if you would like to discuss this option further or we can be of service so that you are compliant January 1 of the new year.

Best Regards,

Robin K. Ritter

Subject: Information and cost request

Hello,

My name is Debra Walker and I am the Director of Media Ministries at the First United Methodist Church in Jefferson City, Missouri. I am in need of some pricing information regarding the software necessary to become compliant with the FCC and the closed captioning regulations.

The system and software we work with now to record and edit our 30 minute program each week is NEWTEK 4.5. Through other research at the cpcweb.com site I have found that the CPC-700NL model is the one that would work for our current system.

Do you have an equivalent software package to the CPC-700NL and how much would it cost to purchase it?

We are really under the deadline here with regulations taking effect January 1. A timely reply to this message would be greatly appreciated.

Thank you for your time and attention,
Debra Walker

Robin,

Thank you so much for your timely response. I do appreciate it.

I need more information about "caption files" and the in-house encoding. How does it work? What is the cost?

Thanks again for your quick reply.

Blessings,
Debra Walker

Gentlemen:

Your application for exemption from Federal income tax as an organization described in section 501(c)(3) of the Internal Revenue Code has been given consideration.

A group ruling was issued by our National Office to the Missouri East Annual Conference of the United Methodist Church, Kansas City, Missouri, on January 26, 1970. That ruling holds that all educational, charitable, and religious institutions operated, supervised or controlled by or in connection with the Missouri East Annual Conference of the United Methodist Church, appearing in their Directory, are entitled to exemption from Federal income tax under the provisions of section 501(c)(3) of the Internal Revenue Code.

Inasmuch as you are an institution of the Missouri East Annual Conference of the United Methodist Church and your name appears in their annual directory sent to our Washington office each year, you come within the scope of the above mentioned group ruling. Accordingly, a separate exemption letter will not be issued to you.

Under the National Office group ruling, contributions made to you are deductible by the donors in computing their taxable income in the manner and to the extent provided by section 170 of the Internal Revenue Code. Likewise, bequests, legacies, devises, transfers or gifts to or for your use are deductible for Federal estate and gift tax purposes under the provisions of section 2055, 2106, and 2522 of the Code.

You are not required to file Federal annual information returns.
