R-03-3  
ORDER NO. 16

**ORDER ADOPTING REGULATIONS**

BY THE COMMISSION:

At our Public Meetings held on June 8 and June 9, 2005, we adopted regulations addressing a variety of telecommunications related matters including tariff policies, depreciation practices, local competitive market rules, and interexchange competitive market rules.<sup>1</sup>

We then transmitted those regulations to the Department of Law (DOL) for review. During its review, the DOL proposed revisions to clarify vague language and remove internal inconsistencies. DOL also provided stylistic changes complying with the *Drafting Manual for Administrative Regulations* adopted by the Department of Law under AS 44.62.050.

3 AAC 48.220 (a) and (e) are amended to read:

**3 AAC 48.220. Filing of tariff.** (a) An original and 10 copies of each utility tariff filing must be on file with the commission at least 45 days before the tariff may take effect unless the commission, by order, authorizes the filing to take effect in less than 45 days after the date of filing, **or unless another commission regulation provides for a different filing method or time period.** An original and 10 copies of each initial pipeline tariff filing shall be on file with the commission at least 90 days before it may become effective unless the commission, by order, authorizes the filing to become effective in less than 90 days from the date of delivery. An original and 10 copies of each revised pipeline tariff must be on file with the commission at least 30 days before the tariff may take effect unless the commission, by order, authorizes the filing to take effect in less than 30 days after the date of filing. Each filing must be transmitted to the commission by means of consecutively numbered letters designated as "Tariff Advice Letter No. 1, 2, 3, etc." Every advice letter must contain the applicable information set out in 3 AAC 48.270, **unless another commission regulation provides otherwise.** If a utility or pipeline carrier desires an effective date before the end of the statutory notice period for a filing, the utility or pipeline carrier shall request an earlier effective date and set out the reasons in the tariff advice letter. The utility or pipeline carrier shall attach rate studies or supply other information pertinent to the filing. If interim approval of a tariff filing is sought, that request must also be set out in the tariff advice letter.

...

(e) Every tariff on file with and approved by the commission is considered to be lawful until revised in accordance with the procedures established by law, [AND] 3 AAC 48.200 — 3 AAC 48.430, **and other commission regulations**. 3 AAC 48 is amended by adding a new section to read:

**3 AAC 48.315. Telecommunications utility rate reductions.** (a) A telecommunications utility may reduce a retail rate without commission approval after notice of a tariff filing submitted by the utility in accordance with applicable filing requirements and notice procedures of this chapter, 3 AAC 52, and 3 AAC 53.

(b) Notwithstanding (a) of this section, the commission may act on rates proposed as follows:

(1) in a local exchange area not designated as a competitive local exchange market under 3 AAC 53.205, the commission will either deny or require modification of rates proposed by a local exchange carrier if the proposal violates an applicable statutory requirement of AS 42.05;

(2) in all other areas, a telecommunications utility proposal to reduce retail rates must comply with the applicable requirements of 3 AAC 52.370, 3 AAC 53.240, or 3 AAC 53.243.

(c) The provisions of 3 AAC 48.275(a) do not apply to a telecommunications utility submitting a tariff filing involving a rate reduction that is not associated with a rate increase. This subsection does not prevent the commission or its staff from requesting information necessary to review compliance with (b) of this section.

(d) In taking any action under this section, the commission may, consistent with principles of state and federal antitrust law, act to preserve fair competition, prevent predatory pricing, and prohibit an unjust or unreasonable bundled service.

3 AAC 48 is amended by adding a new section to read:

**3 AAC 48.425. Depreciation practices for local exchange carriers.** (a)

The Federal Communications Commission's *Depreciation Ranges Adopted in CC Docket No. 98-137*, dated December 17, 1999, is adopted by reference and is used as the depreciation ranges in this section. A local exchange carrier may use depreciation projection lives and future net salvage levels from the depreciation ranges for the carrier's property accounts for purposes of developing intrastate depreciation rates. Depreciation rates developed using the depreciation ranges shall be filed with the commission, and those depreciation rates may go into effect

without commission approval if the filing meets the requirements of (f) of this section and the filing is not suspended under (g) of this section.

(b) A local exchange carrier requesting a depreciation projection life or net salvage level not included in the depreciation ranges shall obtain commission approval of its proposed depreciation rates before placing the rates in effect.

(c) The commission will consider the actual useful life of depreciated equipment and facilities in establishing depreciation rates.

(d) When proposing depreciation rates, a local exchange carrier has the burden of proof to demonstrate that its proposed depreciation or amortization expenses are adequate, but not excessive, in accordance with AS 42.05.471, and in accordance with generally accepted accounting principles.

(e) Regardless of whether the depreciation ranges are used, the rates proposed in a depreciation study filed under this section become effective if

(1) after publishing notice of the depreciation study in a newspaper of general circulation in the affected service areas of the local exchange carrier, the commission does not receive opposing comments within the comment period of the commission's public notice; and

(2) the commission does not take action within six months after the filing date of a complete depreciation study.

(f) A local exchange carrier may apply depreciation rates developed from the depreciation ranges without commission approval 90 days after the filing of a complete depreciation study that complies with the requirements established in this subsection. The depreciation rates proposed under this subsection are presumed to

be adequate, but not excessive, if the proposed rates and study comply with the following requirements:

(1) the proposed depreciation rates are based on a depreciation study that uses the remaining life method of depreciation;

(2) the proposed depreciation rates are based on a depreciation study that uses the straight-line method of depreciation;

(3) the depreciation ranges are used for all property accounts of the carrier;

(4) after publishing notice of the depreciation study in a newspaper of general circulation in the affected service areas of the local exchange carrier, the commission does not receive opposing comments within the comment period of the commission's public notice;

(5) the depreciation study clearly demonstrates the procedures and methods by which the proposed depreciation rates were developed, and that (b) of this section does not apply;

(6) the proposed change in the intrastate depreciation expense does not exceed eight percent from the carrier's previous year's intrastate annual depreciation expense when adjusted to eliminate changes in expense that result from changes in plant account balances; however, the carrier must demonstrate in its filing that the adjustment is just and reasonable.

(g) Notwithstanding (f) of this section, for good cause shown, the commission may issue an order instituting an investigation and suspending the depreciation proposal submitted under (f) of this section. The commission may either approve,

deny, or require modification to the carrier's proposal to ensure that adequate, but not excessive, depreciation rates apply in accordance with AS 42.05.471. (Eff.

3 AAC 48.820 is amended by adding new paragraphs to read:

(51) "bundled service" means an offering combining two or more services, one of which is a local or intrastate interexchange service, for a package price that may include a discount or some other benefit; "bundled service" does not include a combination of local service offerings at a package price, or a combination of intrastate interexchange service offerings at a package price;

(52) "local exchange carrier" means a local exchange telephone utility certificated to provide local exchange telephone service. - (2) sale for resale revenues;
- (3) billing and collection revenues; and
- (4) directory assistance revenues.

(n) On or before March 31 of each year, an interexchange carrier that under (c) of this section is a carrier of last resort or is assigned a responsibility of a carrier of last resort shall file

(1) the prior year's end-of-year balances for plant in service, net plant, and expenses associated with providing interexchange service in the state for

- (A) satellite and earth station radio system facilities;
- (B) microwave and other non-satellite-related radio facilities;
- (C) circuit equipment;
- (D) metallic-based cable and wire facilities; and
- (E) non-metallic-based cable and wire facilities; and

(2) a description of any change from the previous year's filing in the carrier's accounting standards or procedures that affects the financial data required in this subsection.

(o) On or before March 31 of each year, an interexchange carrier shall file with the commission a map or a listing identifying each location where the carrier owns or controls interexchange facilities and identifying each type of facility that is sited at each location. After an initial filing, absent changes to the facilities map or listing, the interexchange carrier shall file verification that no changes to the map or listing have occurred. If the interexchange carrier does not own or control an interexchange facility in the state,

(1) a map or listing is not required; and

(2) on or before March 31 of each year, the carrier shall provide verification that it does not own or control an interexchange facility in the state. (Eff.

3 AAC 53 is amended by adding a new section to read:

**3 AAC 53.205. Competitive local exchange markets.** For purposes of 3 AAC 53.200 — 3 AAC 53.299, a competitive local exchange market is, as designated by an order of the commission, a local exchange or a group of local exchanges within one certificated service area where multiple unaffiliated telecommunications providers are certificated to provide local exchange service. However, upon petition or on its own motion, the commission by order may designate an area as a competitive local exchange market or a noncompetitive area based on the nature and extent of competition available, including competition by a competitor that is not certificated. **3 AAC 53.220. Determination of dominant or nondominant carrier status.** (a) A local exchange carrier is a dominant carrier for retail service in an exchange unless the commission orders, upon a petition or on its own motion, that the carrier is nondominant in an exchange

(1) served by a rural telephone company, as defined by 47 U.S.C. 153(37) and where a second unaffiliated certificated facilities-based local exchange carrier offers service to the public;

(2) where the local exchange carrier's and its combined affiliates' local exchange market share in the exchange is 60 percent or less; or

(3) where at least two unaffiliated local exchange carriers

(A) are eligible telecommunications carriers; and

(B) each individually have a market share of 20 percent or more in that exchange.

(b) For purposes of (a) of this section, market share is measured by the carrier's percentage of customer connections.

(c) Notwithstanding (a) of this section, a local exchange carrier that owns the only facilities used to provide local exchange service to the majority of customers in a competitive local exchange market is a dominant carrier with regard to the following services provided in that area unless the commission determines otherwise as a result of an investigation or review under (e) or (f) of this section:

(1) line extension services;

(2) construction services;

(3) subdivision services agreements;

(4) interexchange carrier access services, including special access services.

(d) Notwithstanding (a) of this section, during or after the commission's review of a competitor's application for certification or during the commission's review of a competitor's application for eligible telecommunications carrier designation, a carrier or an affected person may petition for review of any carrier's dominant or nondominant carrier status.

(e) Notwithstanding any other provisions of this section, the commission may, after investigation, determine a carrier to be a dominant or nondominant carrier for the provision of a service or group of services.

(f) In conducting a review of an incumbent local exchange carrier's status as a dominant carrier in response to a petition filed under (d) of this section or in response to any other petition for a change in status, the commission will determine whether a local exchange carrier will be unfairly competitively disadvantaged with respect to a service or group of services by considering the following factors:

(1) the market share of the carrier and the competitive entrants, as measured in a manner relevant to the service for which nondominant carrier status is requested;

(2) the number, size, nature, and capabilities of competing carriers;

(3) the existence and nature of barriers to entry in competition for the service;

(4) the availability of reasonably substitutable service;

(5) the availability of alternative competitive facilities;

(6) the existence of safeguards to restrain the exercise of market power;

(7) the number of the carrier's customers transferred to a competitor;

(8) the number of customers projected to be lost to a competitor in the next 12 months after the date the petition is filed; and

(9) other factors relevant to determining whether the carrier will be unfairly competitively disadvantaged, including the existence or absence of consumer complaints related to the service.

(g) A local exchange carrier holding dominant carrier status as of {*effective date of the regulations*} shall retain dominant carrier status until the carrier's status is changed by an order of the commission. A local exchange carrier holding nondominant carrier status as of {*effectivedate of the regulations*} shall retain nondominant carrier status until the carrier's status is changed by an order of the commission.

(h) Upon designation of a competitive local exchange market, a local exchange carrier owning the only facilities providing local exchange service to the majority of customers in the newly designated competitive local exchange market is a dominant carrier for services provided to that area, and all other local exchange carriers serving that area are nondominant carriers until otherwise ordered by the commission. **3 AAC 53.240. Retail services for which there is a dominant carrier.** (a)

The provisions of (b) — (d) of this section apply to all retail services in a competitive local exchange market that are not subject to 3 AAC 53.243.

(b) A nondominant carrier shall maintain a current tariff of retail rates and all special contracts for retail rates on file with the commission. A nondominant carrier may modify retail rates and implement special contracts for retail services without approval of the commission after 30 days' notice to the commission of a tariff filing submitted in accordance with 3 AAC 48.220, 3 AAC 48.240, 3 AAC 48.270, and 3 AAC 53.290(f).

(c) A dominant carrier shall maintain a current tariff of retail rates and all special contracts for retail rates on file with the commission. A dominant carrier may reduce retail rates, offer new or re-packaged services, and implement special contracts for retail services without approval of the commission after 30 days' notice

to the commission of a tariff filing submitted in accordance with 3 AAC 48.220, 3 AAC 48.240, 3 AAC 48.270, and 3 AAC 53.290(f). A tariff revision by a dominant carrier to increase a rate is subject to the provisions of 3 AAC 48.200 — 3 AAC 48.430.

- (1) are not just and reasonable;
- (2) grant a customer an unreasonable preference or advantage; or
- (3) subject a customer to an unreasonable prejudice or disadvantage.

3 AAC 53 is amended by adding a new section to read:

**3 AAC 53.243. Retail services for which there is no dominant carrier. (a)**

This section applies to retail services other than retail services specified in 3 AAC 53.220(c) or provided for under 3 AAC 53.220(e) if there is no local exchange carrier in the competitive local exchange market with dominant carrier status for the services.

(b) A nondominant carrier shall maintain a current tariff of retail rates and all special contracts for retail rates at the carrier's primary business office and shall provide a summary of the current tariff and the special contracts on the carrier's web

site. The carrier must notify the commission of the Internet address, including any changes to the address.

(c) Without approval of the commission, and after compliance with the requirements of (d) and (e) of this section, a local exchange carrier may implement,

(1) from {*effective date of the regulations*} through June 30, 2010, rate changes that do not involve a proposed increase to a carrier's residential or single-line business basic line charges of more than eight percent in the calendar year;

(2) after June 30, 2010, retail rate changes for local exchange services;

(3) new and repackaged services; and

(4) a bundled service that includes a local exchange service component unless the bundled service also includes a discounted intrastate interexchange component.

(d) In connection with any changes to the services offered by a carrier under (c) of this section, the carrier shall, before offering the service,

(1) post a notice summarizing the new or changed offer on the carrier's web site before offering the service, with the notice remaining on the carrier's web site for at least 30 days after the service change is implemented;

(2) file with the commission an informational filing that includes a copy of the tariff sheets and a letter identifying

(A) existing rates for the service, if applicable;

(B) proposed rates for the service; and

(C) a summary of all rate changes, including the percentage increase or decrease to the rate, for that service during that calendar year;

(3) submit by electronic mail, an electronic version of any revised tariff sheets and cover letter to any consumer that requests electronic mail notification from the carrier.

(e) A tariff revision that does not comply with the requirements of (c) of this section must be submitted under 3 AAC 53.240.

(f) The provisions of 3 AAC 48.220(c) do not apply to special contracts for services where there is no dominant carrier. Unless a petition for confidential treatment is filed under 3 AAC 48.045, a local exchange carrier may implement a special contract without approval of the commission by

(1) posting on the carrier's web site a summary of the services offered, a list of the parties to the special contract, and a statement that the special contract is available for inspection at the commission's office; and

(2) filing with the commission

(A) a cover letter referencing that the informational filing is submitted under 3 AAC 53.243;

(B) an update of the carrier's list of special contracts; and

(C) a complete copy of the new special contract.

(g) A special contract that does not comply with the requirements of (f) of this section or includes a service for which there is a dominant carrier must be submitted under 3 AAC 53.240.

(h) The commission will deny and require modification of rates or terms or conditions of service that

(1) grant a customer an unreasonable preference or advantage; or

(2) subject a customer to an unreasonable prejudice or disadvantage.

3 AAC 53 is amended by adding a new section to read:

**3 AAC 53.245. Competitive entry rate modification.** (a) An incumbent local exchange carrier may petition the commission to modify its existing retail local exchange rates to establish new rates for the noncompetitive area if the carrier

(1) is a rural telephone company as defined in 47 U.S.C. 153(37); and

(2) demonstrates that a competitor may enter the incumbent

local exchange carrier's service area.

(b) An incumbent local exchange carrier that is not a rural telephone company as defined in 47 U.S.C. 153(37), or that cannot make the demonstration required by (a)(2) of this section, may petition the commission for approval to use the provisions of (d) — (h) of this section to propose modifications of the carrier's existing retail local exchange rates for the noncompetitive areas. The carrier must obtain approval of its petition before filing a rate modification proposal under this section. The commission may grant a petition filed under this subsection if the

carrier demonstrates that using the provisions of (d) — (h) of this section is in the public interest.

(c) A petition for permanent rate modification, filed under this section by an incumbent local exchange carrier, and as approved by the commission, becomes effective only upon approval of the competitor's application for certification or eligible telecommunications carrier designation in the incumbent local carrier's service area.

(d) A petition for a rate modification filed under this section must also be filed in accordance with 3 AAC 48.270, and must include the following:

(1) a reference to this section and a description of the service or group of services that are or may become competitive in one or more portions of the incumbent carrier's service area and, if applicable, the docket number of the competitor's application proceeding;

(2) a study in support of the rate modification; the study must be based on

(A) the incumbent carrier's most recent revenue requirement study or cost-of-service and rate design study, including demand levels from the test year if the revenue requirement study or cost-of-service and rate design study was approved within the previous three years;

(B) a new revenue requirement developed under 3 AAC 48.275; or

(C) on a revenue requirement developed under 3 AAC 53.010 — 3 AAC 53.140;

(3) a detailed description and an explanation of the method used to determine the revenue requirement, demand, and rates proposed for each exchange including

(A) all accounts or subaccounts and the amounts that are directly assigned to each exchange;

(B) all accounts or subaccounts and the amounts that are allocated among the exchanges, together with a description of the allocation methodology and the basis for the factors used; and

(C) an analysis demonstrating that the sum of the revenue requirements for the exchanges in noncompetitive areas plus the exchanges in competitive local exchange markets equals

(i) the total company local revenue requirement approved by the commission within the three previous years; or

(ii) a local revenue requirement developed under either 3 AAC 48.275 or 3 AAC 53.010 — 3 AAC 53.140;

(4) a copy of the carrier's federal universal service fund disaggregation plan filing under 47 C.F.R. 54.315;

(5) an explanation of how the cost allocations and universal service fund assignments used in the proposed rate modification are consistent with or different from the cost allocations and universal service fund assignments from the carrier's federal universal service fund disaggregation plan filing;

(6) supporting data and reasons why the cost differences by exchange cannot or should not be addressed through the current or an amended federal universal service fund disaggregation plan filing;

(7) a description of the operating revenues by exchange based on billing records from the test year used to develop the revenue requirement;

(8) a description of the methodology used to allocate all operating revenues that are not specifically related to an exchange;

(9) existing rates for discretionary services and non-recurring charges;

(10) a cost allocation manual, developed consistent with the cost allocation principles of 47 C.F.R. 64.901, as revised as of October 1, 2004 and adopted by reference, with costs for competitive local exchange markets treated like nonregulated costs; the cost allocation manual must specify how the incumbent local exchange carrier will separate nonregulated costs and costs for competitive local exchange markets from regulated costs for noncompetitive areas; the cost allocation manual must remain in effect until completion of the carrier's next general rate case or until otherwise ordered by the commission; however, if an incumbent local exchange carrier received approval under (b) of this section to use the provisions of (d) — (h) of this section to propose modifications to the carrier's existing retail local exchange rates, the carrier is not required to file a cost allocation manual under this paragraph.

(e) A petition for a rate modification filed under this section may include

(1) deaveraged rates for private line services based on differences in cost between exchanges; and

(2) a differential between basic residential rates and business rates within the same exchange area with a detailed explanation and a justification for any change in the differential between basic residential rates and business rates.

(f) A local exchange carrier may petition the commission to implement, on an interim and refundable basis, its rate modification proposal in the noncompetitive areas

(1) on the date a competitor is granted a certificate of public convenience and necessity;

(2) when a competitor is designated as an eligible telecommunications carrier in the local exchange carrier's service area; or

(3) on the date a competitor offers services to a customer for compensation, if

(A) a complete petition for rate modification is filed with the commission; and

(B) the commission has not previously approved or denied the petition to modify rates.

(g) Any information required under (d) of this section may also be filed in the docket relating to the competitor's application for certification or for eligible telecommunications carrier designation to aid in the commission's consideration of the application.

(h) Upon petition, or on its own motion, for good cause, the commission may delay or advance the implementation of a rate modification proposal that is the subject of a petition under (f) of this section.

(i) In this section, "general rate case" means a proceeding, initiated by a filing with supporting information described in 3 AAC 48.275, in which the commission reviews the local exchange carrier's costs and revenues to establish rates. (Eff.

(h) The provision of 3 AAC 48.270(a) that requires the filing of the estimated number of customers or shippers who will be affected by each separate schedule listed and the estimated annual revenues under both the existing and proposed rates does not apply to a retail service offering of a local exchange carrier unless the carrier proposes to discontinue or increase the rates for a service. However, the commission may require a local exchange carrier filing a tariff under 3 AAC 53.240 to provide that information after the carrier submits its tariff proposal.

(i) On or before March 31 of each year, a local exchange carrier shall file a financial report of the carrier's operations in the state for the previous calendar year. The carrier's out-of-state operations must be excluded from the financial report. The carrier's financial report must include the following detailed information regarding its local exchange operations:

- (1) gross revenue;
- (2) sale for resale revenue;
- (3) access charge revenue;
- (4) billing and collection revenue; and
- (5) directory assistance revenue.
