

EXPLANATION OF MINOR AMENDMENTS¹

In the Public Interest Statement for the transfer of control of authorizations held by BellSouth Corporation (“BellSouth”), Cingular Wireless LLC (“Cingular”), and their subsidiaries to AT&T Inc. (“AT&T”), the Applicants requested

that any Commission approval of the applications filed for this transaction include authority for AT&T to acquire control of: (1) any authorization issued to the respective licensees/transferors during the pendency of the transaction and the period required for consummation of the transaction; (2) any construction permits held by the respective licensees/transferors that mature into licenses after closing; (3) any applications that are pending at the time of consummation; and (4) any *de facto* transfer leases of spectrum into which BellSouth or Cingular subsidiaries enter as lessees during the pendency of the transaction and the period required for consummation of the transaction. . . . Moreover, because AT&T is acquiring BellSouth and Cingular and all of their FCC authorizations and *de facto* transfer leases of spectrum, AT&T requests that Commission approval include any authorizations that may have been inadvertently omitted.²

Consistent with these requests, and to update the Commission’s licensing records in the manner agreed to with the Staff, the Applicants are filing a series of minor amendments concerning those call signs, authorization file numbers, and spectrum leases which

¹ Although the lead application for the wireless radio services (File No. 0002545739, previously had only two exhibits, this Exhibit 4 is so numbered because some of the Forms 603 filed in conjunction with this transaction already have three exhibits, and we are cross-referencing this exhibit in some of those Forms 603.

² AT&T Inc. & BellSouth Corp., Description of Transaction, Public Interest Showing and Related Demonstrations at 125-26, *In re Applications of AT&T Inc. & BellSouth Corp.*, WC Docket No. 06-74 (filed Mar. 31, 2006) (“Public Interest Statement”).

BellSouth, Cingular, and their subsidiaries have obtained or of which they have disposed between the release of the Public Notice in this proceeding³ and today.

In addition, the Applicants are filing notifications of the transfer of control of various spectrum manager leases under which Cingular subsidiaries are the lessees. As discussed in the Public Interest Statement,⁴ the transfer of control of these lessees is a pro forma transaction; therefore, Section 1.9020(j) of the Commission's rules provides that the Applicants may file these notifications on a post-consummation basis.⁵ Nevertheless, as with the pro forma transfer of control applications for Cingular's licenses, the Applicants are filing these notifications in advance of consummation out of an abundance of caution.

The Applicants have made every effort to be complete in updating the Applications with these Minor Amendments. However, because AT&T is acquiring BellSouth and Cingular and all of their FCC authorizations and spectrum leases, AT&T repeats its request that Commission approval include any authorizations or leases that may have been omitted inadvertently.

12c) from “Yes” to “No” because the fifth anniversary of the grant date has passed for all of the licensee’s licenses which were awarded with bidding credits or through closed bidding. Accordingly, the Applicants are amending this Application further by removing Schedule A. In addition, on October 11, 2006, after the fifth anniversary of the grant date passed, Cingular acquired control of the licensee.⁶³ Accordingly, the Applicants are updating the licensee contact information and removing Exhibit 3 to this Application because they are no longer correct. Likewise, because Salmon PCS Licensee LLC no longer qualifies as a designated entity, it is no longer correct to include that entity on page 131 of the Public Interest Statement in the list of designated entities for which transfer of control applications were filed. Finally, those licenses that were listed as unconstructed when the Application was filed originally have now been listed as constructed.

43. BellSouth has withdrawn an amendment it filed on April 19, 2006 to **File No. SCL-T/C-20060331-00003**, seeking authority to transfer control of BellSouth's submarine cable landing licenses. That amendment conformed the licensee listed on the Application to the then-licensee of record. Subsequently, the Commission granted a pro forma assignment of those licenses from BellSouth International, Inc. to BellSouth Long Distance, Inc.⁶⁸ As the licensee of record now matches the licensee listed on the Application as originally filed, the April 19, 2006 amendment is no longer necessary or correct.
