

To Whom it May Concern:I am the owner of Stanly Communications, Inc., licnesees for radio stations WSPC and WZKY both on the AM dial in Albemarle, NC. Both of our stations are severely restricted in nighttime coverage having to reduce power at sunset. There is also an area of our county that is exploding in growth that due to interference, is difficult to get good AM reception. This proposed rulemaking to allow AM stations to have FM translators would greatly help us with our nighttime coverage and in this area of our county where I get requests all the time for better coverage. Thank you for your consideration!

Respectfully Submitted,

Matt Smith

President, Stanly Communications, Inc.

1010AM WSPC & AM Stereo 1580 WZKY
