

Dear FCC, I thought we lived in the USA not Soviet Russia. I think the FCC has a bigger responsibility to clean up the content of the public airwaves of profanity and inappropriate displays of nudity, not control of broadcast media. It is not government's job to own media. That is a violation of both free speech and freedom of the press. If government controls the press or media outlets then it becomes the rule of the press, by the press, for the press . Hands off! The media needs more competition, not more government control. How about moving in a free market direction for a change, after all this is supposed to be the land of the free. However lately, I have started to have my doubts.
