

Dear Sirs The left has already the News Corporations of CBS, NBC and Abc plus their minions with a four letter anagram, what nthey want is to shut down the opposition from the internet and talk radio. You and your contemporaiers in both houses have pissed away each of the freedoms we have with socialism in mind.

Most of you are bright ( I think this may not be true) but you tened to get tunnel viusion what with having to enable your re-election into the distant future and it seems petty for us to want/demand our rights.

You will be like Clinton trying to make a legacy other than the one he and you have earned.

God and your constituents demand you do the right thing, retroactive would be alright as well.
