

The capital system requires competition. Aside from that simple point alone, without a free exchange of ideas we will become a dead country. It is this freedom a consolidated media would take from us. A famous historian once said to conquer a country, you need only control the minds of their children. Well, these mega-corporations seek to control the minds of all, and must be stopped. Looked what happened when Hitler controlled the media with his propaganda! DO NOT ALLOW THE CONSOLIDATION OF MEDIA OWNERSHIP, FOR THAT IS THE CONSOLIDATION OF POWER! A DANGEROUS THING INDEED!
