

I just turned 68 years old. I feel as if I now have the ability to listen to what I want to, and not listen to what I don't want to listen to. You must allow more freedom not to restrict freedom to listen. I can not stand to listen to some of the programs on the main stream media airways. I am a retired Senior Citizen, and a Conservative. Please do not restrict my choices. Thank You,

Ken Winzen Sr.
