

I will NOT tolerate the continued decline of our country. Our Government has lost its way and the understanding of its role. We, the people, will not allow it to happen any longer. We expect our representatives and those in committee to be rational, constitutionalists who follow the law of our land and prevent issues like this from ever surfacing. When liberals controlled the government, for the last 40 years, it wasn't an issue. Now that a revolution of conservatives and open minded thinkers have taken control of our decline, things like this pour in. Controlling or limiting the press is the one thing that I will not stand for. The press is already controlled by so much liberal bias that it's come to the point where I will read only certain sections of a newspaper. TV Media is whacked. They sensationalize anything and everything. Abductions of women or kids to a white Scout driving down a Los Angeles highway for an hour. It's all disgusting. Sometimes people need to take the most WISE decision. Wisdom seems to be a thing of the past. You want to do your job? Fine. Censor primary broadcast channels from things that harm our children. Focus on the factions that are trying to destroy this country. If you haven't realized who they are or where they are, then you've been working too much overtime and need to sit back and fuse everything together. Analyze it. Just take an hour with a cup of coffee and listen to some of the major influences of media today. Do your job but don't you dare tread on my constitution or our basic rights.
