

I, James Omar Mena, am seeking for the most effective way for myself to achieve a life long challenge to make my family, as well as myself happy. To be a proper citizen/individual. Many family members, as well as many friends rely on me and my actions, daily(I invite you to inquire). I too, rely on my many family members and friends daily. I am also seeking to end my erroneous persona that has been placed upon me . I will openly, self-insured, continue my personal attempt to reach successfulness, and live as a law abiding citizen. I thank you for the opportunity to express my feeling on this matter. Diligently, James O. Mena
