

To the Commission:

In light of the numerous ex parte filings by Multispectral Solutions Inc. (MSSI) and others, it is necessary that I supplement and amend my previously filed comments and reply comments. The record reflects a modification of the waiver request by MSSI. While these modifications to the waiver request seem to suggest that MSSI has submitted their waiver request prematurely (before fully developing the evidence, technology, and arguments to support their waiver request), in giving MSSI the benefit of the doubt, I believe the proposed waiver request - as amended - goes a very long way toward alleviating the concerns of myself and others. PROVIDED, that MSSI completely honors the representations it made in its various communications with the Commission between 24 September 2006 and 27 October 2006, I withdraw the objections contained in my previous comments and reply comments.

Respectfully Submitted:

/s./ James Edwin Whedbee
