

We were granted an exemption to having our television program including closed captioning. I am asking that this exemption be upheld because if we are forced to include closed captioning into our program we will be forced to go off the air. The additional cost of closed captioning would put an undue burden on our church. This program is funded by the free will offerings of our congregation and we do not ask our television audience for any money. Please let us keep our exemption so that we can broadcast to our community.
