Office of the Secretary

Dear Commissioner Deborah Taylor Tate,

Re: DA 06-1802, CGB-CC-0005 and CGB-CC-0007

I protest the FCC approval of almost 300 requests for new programs to be shown without closed captions.

The FCC weakened the closed captioning rules, and appears to have created new standards and new rules for permitting programs to be televised without closed captions. I believe the FCC violated the closed captioning rules.

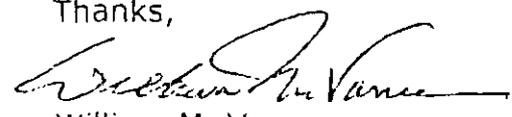

People who are deaf or hard of hearing want access to televised information and entertainment, just like everyone else.

Closed captioning is an essential part of any televised program. Captioning is not too difficult or too expensive.

I cannot watch television programs that are not captioned.

Please reconsider these FCC decisions and support closed captioning.

Thanks,

William M. Vance

Docket No. 06-181

From: Tammy Mitchell [tamster@faithmail.com]**Sent:** Tuesday, October 31, 2006 11:37 AM**To:** Kevin Martin; Michael Copps; Jonatha.Adelstein@fcc.gov; Deborah Tate; Rober.McDowell@fcc.gov; Monica Desai**Subject:** Closed Captioning

I am writing to ask that oppose granting exemptions for closed captioning. As a mother of a 10 year old son who is severely hearing impaired, I cannot begin to tell you how important closed captioning is to my son and how much a part of his daily life it is. He depends on closed captioning to enjoy watching movies or TV shows. Without captioning, he must try to watch them and read lips on the shows and pick up what little he can of the actual sounds from the TV. It is hard enough to keep up with a show or movie by having to read and try to watch the pictures. I urge you to sit at your TV and put a movie on, turn the sounds off and try to read the lips of the actors and enjoy the show. If you wear glasses or contacts, take those off and try to enjoy the show. After doing that, I am sure that you will understand what it is like for a deaf or hard of hearing person in this world. Take a look at the number of persons who are deaf or hard of hearing in this country. We are in dire need of help in making this country aware of the daily needs for the deaf and hard of hearing. Deafness is the most misunderstood disability.

My son and I appreciate your help in this issue!

Sincerely and with an ache in my heart,
Tammy Mitchell

Subject: Sept 13 decision regarding television captioning waivers

October 31, 2006

Kevin J. Martin, Chairman
Michael J. Copps, Commissioner
Jonathan S. Adelstein, Commissioner
Deborah Taylor Tate, Commissioner
Robert M. McDowell, Commissioner

Dear Commissioners,

This is to let you know that I fully support the action alerts from TDI and other national organizations to oppose the decisions taken by the Federal Communications Commission (FCC) on September 13, 2006. We respectfully ask that the FCC reverse its September 13, 2006 decisions regarding television captioning waivers.

Churches make up a very important part of every community. It is within their mission to support the basic needs of all people within their reach. When Hurricane Katrina struck the Gulf Coast one year ago, they were among the first to offer help with shelter, food, and other assistance to the survivors. Captioning TV programs does meet a legitimate basic need for access to information just like building a ramp to the church door. By providing captions to meet the needs of a significant population group, the churches will find themselves with an expanded TV viewership, which will lead to an increase in their membership and other support from the community. When children and adults are able to read captions on spiritual programs, they are influenced to live up to high moral standards and contribute their part to the community. Hearing loss is the number one growing disability among senior citizens they will find themselves depending on captioning to listen to the message.

We want to participate fully in all programs and services at our local church because it serves as a vital resource that empowers us to be fully integrated in the community. If one of us who are deaf or hard of hearing sees the services with captions on TV, we can interact with other church members, neighbors, fellow employees, family members, and service professionals in the local community. We stand to benefit from the "local connection" that national religious programs are unable to provide.

We know that all video programmers have had ten years to prepare for the captioning regulations now in place, and temporary waivers when appropriate. When you give full permanent exemptions to the two programmers, it reverses all the access we have worked on for years. We ask that programmers consider other possible revenue options such as sponsorships and aftermarket sales (videotapes or DVDs) to cover the cost of captioning. Or, they can reduce other expenses in their production budgets to enable the provision of captioning.

Closed captioning gives me a) access to news that is indispensable to the community, b) entertainment that is an integral part of our lives, and c) education that paves the way for us to become self-sufficient in society. The information that everyone in the community receives is also important to me and I can only get it if it is captioned.

Thank you for your consideration,

Sincerely,

Dawn Ann Duboski

It appears that instead of going forward for hearing impaired people, the Commission is going back to the dark ages. How about if you try sitting in front of the television with the sound off and try to make heads or tails of what is being said. Maybe then you will realize what we go through. I was under the impression that all programming was to be captioned by the end of this year with no exceptions. What happened?

Office of the Secretary

Hello -

In our rural community, the news stations do not currently provide captioning of their evening news. Deaf people therefore do not have access to the local broadcast news! Deaf people obviously can't hear the radio, and the newspaper does not have up-to-the-minute, breaking news, video, and many other important features of broadcasts. If you change the rules regarding "undue burden," we will not be able to get our local news stations to caption their news broadcasts.

Imagine if you could not turn on the sound on your TV. How would you feel if your local news were completely inaccessible to you?

Please consider how this affects people who are already left out of many public communications.

Thank you,

Docket No. 06-181

From: Hear MyHands [hearmyhands@hotmail.com]
Sent: Wednesday, November 01, 2006 11:45 PM
To: hearmyhands@hotmail.com
Subject: DA 06-1802, CGB-CC-0005 and CGB-CC-0007 (copy to Commissioners, et. al)

Dear FCC:

Regarding DA 06-1802, CGB-CC-0005 and CGB-CC-0007, I adamantly protest the recent orders that grant exemptions from closed captioning issued by CGB. These Orders appear to create a new regulation that carve out a new exemption basis, which is not in keeping with current regulations! I am OUTRAGED and believe the FCC has created a loophole that almost ANY entity crying "it costs too much!!" can now use. Please reconsider immediately! We need our closed captioning! I have TWO DEAF TEEN SONS in my household, and if this is what the future holds for them and other Deaf persons in this supposedly technological age, i.e. "Progress is soaring, but for YOU, it's going BACKWARD!," well then, this is the most outrageous scenario the Deaf can encounter! We have to fight every day to get the same benefits as others -- not MORE, but just the SAME! -- even for things like getting informed during hurricanes for newscasts!! Is it not bad enough that captions are often garbled up, rendering them useless to the Deaf??? Are we now at the stage where the FCC is carving away caption options for some programs?? RELATIVELY SPEAKING, CAPTIONING IS NOT AN EXPENSIVE ADDITION TO PROGRAMMING! IT PROBABLY COSTS LESS THAN ONE OF THE CATERED LUNCHES SOME PRODUCTIONS ROUNTINELY HAVE ON HAND! But to allow them to cry "we can't afford it" shouldn't be an option! It's pretty well known many people just DON'T WANT TO PAY FOR IT because they consider the Deaf part of the population they just don't care about and whether they watch their program or not, and now you have given many people a LOOPHOLE to carry out that mission! The captioning situation for the Deaf all over this country is bad enough as it is, but to go out of your way to make it worse, well then, THIS IS A DISGRACE!

Washington, D.C. 20554

FILED/ACCEPTED

NOV 14 2006

Federal Communications Commission
Office of the Secretary

Dear Chairman Martin:

The Rehabilitation Engineering and Assistive Technology Society of North America (RESNA) is an interdisciplinary association of people with a common interest in technology and disability. Our purpose is to improve the potential of people with disabilities to achieve their goals through the use of technology. In accord with our purpose, we are voicing our concern with the Federal Communications Commission's (FCC) decision to grant exemptions from its closed captioning rules in the Matter of New Beginnings Ministries and Anglers for Christ Ministries, Inc.; Memorandum Opinion and Order, CGB-CC-005, CGB-CC-007, adopted September 12, 2006.

RESNA is not addressing the merits or demerits of the two particular exemptions. Rather, RESNA takes exception to the point that the Commission's action in this matter appears to have the effect of promulgating an unfortunate change in its rules, i.e., the creation of a new category of presumptive exemptions from closed captioning that acts to seriously undercut the historical and national efforts to serve the disability community.

It is our understanding that the FCC's rules provide that petitioners present sufficient evidence to support an exemption from the closed captioning standards under the "undue burden" standards. The proposed standard "...curtails other activities important to its mission" absent a qualifier similar to the proceeding "substantially curtail its programming" is sufficiently lax as to be rendered ineffectual to maintain closed captioning.

The issue of "undue burden" bears closer examination. In addition to broadcast costs, a content producer must incur some set of production costs. The "burden" of captioning must be set against this backdrop of other costs that they are clearly willing to incur in order to air their show. If the captioning turns out to be a relatively small expense compared to the costs that they are willing to bear, then it is unclear how captioning can be considered an undue burden. For an independent producer, captioning can be done inexpensively. These content providers have the ability to take advantage of free

captioning tools which allow them to self-caption the show either using existing production staff or volunteers. A new generation of low cost (and excellent) captioning services is also available. Any combination would keep a show's production cost down and might make their pitch to broadcast station's acquisition department even more attractive. In the general case, an independent producer should demonstrate that all options have been considered and for practical purposes, "undue burden" should be almost unattainable.

RESNA is committed to extending the benefits of technology to people with disabilities. The closed captioning statute contains congressionally-approved waivers as well as a mechanism, the "undue burden" standard, by which the Commission may grant individual waivers to petitioners who provide evidence that they meet the standard. Thus we request that the FCC take remedial action to protect television access, and more broadly, access to all broadcast streams for people who are deaf and hard of hearing.

Sincerely,

A handwritten signature in black ink, appearing to read "Glenn Hedman", with a stylized flourish at the end.

Glenn Hedman, PE, ATP, RET

Office of the Secretary

November 6, 2006
FCC Chief, Consumer & Governmental Affairs Bureau Monica Desai

Dear Monica Desai,

I protest the FCC approval of almost 300 requests for new programs to be shown without closed captions.

The FCC weakened the closed captioning rules, and appears to have created new standards and new rules for permitting programs to be televised without closed captions. I believe the FCC violated the closed captioning rules.

People who are deaf or hard of hearing want access to televised information and entertainment, just like everyone else.

Closed captioning is an essential part of any televised program. Captioning is not too difficult or too expensive.

I cannot watch television programs that are not captioned.

Please reconsider these FCC decisions and support closed captioning.

Sincerely,

Val Popov

Kevin J. Martin, Chairman
Michael J. Copps, Commissioner
Jonathan S. Adelstein, Commissioner
Deborah Taylor Tate, Commissioner
Robert M. McDowell, Commissioner

Dear Commissioners,

This is to let you know that I fully support the action alerts from TDI and

other national organizations to oppose the decisions taken by the Federal Communications Commission (FCC) on September 12, 2006. We respectfully ask that the FCC reverse its September 12, 2006 decisions regarding television captioning waivers.

Churches make up a very important part of every community. It is within their mission to support the basic needs of all people within their reach. When Hurricane Katrina struck the Gulf Coast one year ago, they were among the first to offer help with shelter, food, and other assistance to the survivors. Captioning TV programs does meet a legitimate basic need for access to information just like building a ramp to the church door. By providing captions to meet the needs of a significant population group, the churches will find themselves with an expanded TV viewership, which will lead to an increase in their membership and other support from the community. When children and adults are able to read captions on spiritual programs, they are influenced to live up to high moral standards and contribute their part to the community. Hearing loss is the number one growing disability among senior citizens – they will find themselves depending on captioning to listen to the message.

We want to participate fully in all programs and services at our local church because it serves as a vital resource that empowers us to be fully integrated in the community. If one of us who are deaf or hard of hearing sees the services with captions on TV, we can interact with other church members, neighbors, fellow employees, family members, and service professionals in the local community. We stand to benefit from the "local connection" that national religious programs are unable to provide.

We know that all video programmers have had ten years to prepare for the captioning regulations now in place, and temporary waivers when appropriate. When you give full permanent exemptions to the two programmers, it reverses all the access we have worked on for years. We ask that programmers consider other possible revenue options such as sponsorships, long-term captioning service agreements, and aftermarket sales (videotapes or DVDs) to cover and minimize the cost of captioning. Or, they can reduce other expenses in their production budgets to enable the provision of captioning.

Closed captioning gives me a) access to news that is indispensable to the community, b) entertainment that is an integral part of our lives, and c) education that paves the way for us to become self-sufficient in society. The information that everyone in the community receives is also important to me and I can only get it if it is captioned.

Thank you for your consideration,

Sincerely,

Ronald F. De Mey

Federal Communications Commission
Office of the Secretary

I am angry and I protest the FCC approval of almost 300 requests for new programs to be shown without closed captions.; As a sibling of a deaf adult, I am appalled at the insensitivity to the needs of the Deaf population. My brother should be able to enjoy television program as equally as I do. Kevin Martin should be standing up in support of equal access for people with disabilities, NOT against it.; FCC must reverse their decision, support deaf and hard of hearing consumers, and support closed captioning.
