

Dear FCC Commissioners

Last AT&T & SBC merger cost was thousands of jobs including me. Now they are doing again. In this economy we need lots job especially for our thousands of brave man and woman who is currently serving Iraq & Afghanistan. This merger may cost again thousands of Job then we will have another load to place them back home.

Plus AT&T already started giving signal for monopoly. Example in my Cingular Wireless bill, AT&T Wireless/Cingular used to offer free incoming text messaging, beginning next month (in January 2007 they dropped free incoming text messaging service and they raised price for text messaging from \$0.10 to \$0.15.

For all above I am totally opposing for AT&T / Bellsouth merger.

Thanks

Shaf Liton
