

Dear FCC:

The past two decades have witnessed the number of major corporations that dominate television, movies, music, radio, cable, publishing and the Internet dwindle from 50 to less than two dozen -- with power concentrated especially in 10 huge conglomerates. These include AOL Time Warner, Disney, General Electric, News Corporation, Viacom, Vivendi, Sony, Bertelsmann, AT&T and Liberty Media.

Please prevent big media from getting any bigger and instead encourage a more diverse, independent and minority ownership. For the sake of the people to have various points of view. Otherwise, it becomes a controlled state with no information as to what is really happening. For example, Germany under Hitler. We need a democracy with a well informed public.
