

"On December 20, please vote yes on Chairman Martin's cable franchise reform proposal. Competition is good for consumers, and it's the only thing that will control cable TV prices. We can't afford the status quo. Please help us by encouraging competition."

I believe this is especially important in light of the impending change to HDTV as proposed in 2009. Many people will be confused at that time and there should be a very competitive environment in place for those who wish to obtain their TV communications services from cable, Satellite, or Fiber suppliers. I work with HD TV for a living and I am very confused so how much more the average user. Greater competition now is certainly indicated.
