)	
Amendment of Section 97.305(c) to Authorize Image Emissions in Additional High Frequency Segments)	

To: The Commission

CORRECTION

On December 11, 2006, ARRL, the National Association for Amateur Radio, also known as the American Radio Relay League, Incorporated (ARRL), filed a Petition for

Reconsideration, asking that the Commission reconsider and modify a portion of the *Report and Order* (the R&O), FCC 06-149, released October 10, 2006, 71 Fed. Reg. 66460, *et seq.* ARRL requested specifically that the Commission relocate the dividing line between the narrowband segment and the wideband segment of the 3500-4000 kHz Amateur band from 3600 kHz to 3635 kHz. The Petition incompletely recited the amendment to Section 97.301 that would be necessary to implement the change requested in the Petition for Reconsideration.

The Petition, as filed, asked that the Commission reconsider the amendment of Section 97.301(b), so as to re-establish the dividing line between the telephony/image segment and the RTTY/data segment of the 80-meter band only to the slight extent necessary to restore access to the automatically controlled narrowband digital subband of 3620-3635 kHz. The same relief, pending reconsideration, was requested in a Petition for Partial Stay, contemporaneously filed therewith. In order to completely grant the relief requested by ARRL in its Petition for Reconsideration, Subsections 97.301(b), (c), (d) and (e) would each have to be conformed, so as to change 3.60 MHz to 3.635 MHz wherever the former appears. It is respectfully requested that the Petition for Reconsideration be corrected to specify those specific rule changes, not merely the modification of Section 97.301(b).

Therefore, the foregoing considered, ARRL, the National Association for Amateur Radio, respectfully requests that the Commission reconsider and modify the rules governing emissions permitted in the 3600-3635 kHz subband, in accordance with the relief requested in its timely filed Petition for Reconsideration, as corrected hereinabove.

Respectfully submitted,

ARRL, the National Association For Amateur Radio
