

I am writing in support of KBHC/1-800-SUICIDE and encourage the FCC to not simply transfer the lines at a request of another government agency. Please recognize that HHS/SAMHSA have been working at trying to suffocate 1-800-SUICIDE because they created a competing hotline.

Let 1-800-SUICIDE do what it does best. And fulfill the financial promises made to the organization that were made earlier this year.
