Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Patricia Larson

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Vera Buk-Bjerre

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Shirley Dix

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio. We have quite enough advertising, thank you, in the newspaper, in magazines, on television every few moments, on billboards, everywhere you look. Why should ads be masquerading also as news reports?

The FCC no longer has the Fairness Doctrine, and media is becoming more and more untrustworthy and less and less independent, since now four moguls run the media world.

ENOUGH! WE PROTEST!

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Diana Larson

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Ann Burrige

UPDATE: JUST LAST NIGHT, 12/18/06, I WAS WATCHING THE 6:00 PM NEWS ON KSBY IN SAN LUIS OBISPO, CA. AT 6:53 THEY AIRED A SO-CALLED "HEALTH AND MEDICINE" SEGMENT, SUPPOSEDLY "NEWS". THE SEGMENT TOUTED LASER THERAPY FOR ACNE AND EVEN FEATURED A LASER MACHINE WITH THE NAME "FRAXEL" ON IT. THEY EVEN SAID THE PRICES FOR THE VARIOUS LASER THERAPIES. IT WAS AN OBVIOUS ADD, CLOAKED AS "NEWS"! PLEASE STOP THIS ABUSE!

Please act immediately to stop fake news in California. Corporations should not creating and sponsoring their own news pieces. This interferes with the public getting a true picture of what's going on in the world. There must be a better way for the public to determine who or what is behind the stories in the news. News created by a corporation is always going to have that corporations' interests at heart so cannot truly be objective. Please look into this problem and act properly on it. Thankyou

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act now to stop fake news in California.

Sincerely,
Noreen Weeden

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Joseph Acterman

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

By disguising advertisements as news, stations violate both the spirit and the letter of their broadcasting licenses. This deception is illegal. It's a serious breach of the trust between these California stations and the communities they serve.

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

Please act immediately to stop fake news in California.

Sincerely,
Christopher Lish

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Julie Machado

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Teresa Durling

Subject: Treat Fake TV News Like The Advertising It Is

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Political advertisements are required to identify the source of their funding within the ad. And magazines are required to identify "advertorials" as such so that readers are not duped into believing what they're reading is legitimate journalism. There needs to be an equivalent disclosure statement displayed onscreen whenever "video news releases" are aired.

Please act immediately to disclose to California viewers the source(s) of fake news. Fake news is nothing more than advertising and should be treated (and perceived) as such.

Thank you for your attention to this important matter.

Sincerely,
Nancy Winebarger

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Kieran Turan

I understand that TV stations are taking advertizing releases from corporations, and putting them on TV newscasts as if they were regular news. If corporations have given the releases out, they should be mentioned as the authors by the TV stations.

These releases are fake news. I want you to act immediately to stop it.

Subject: Corporate propoganda in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

This is an illegal practice and should be penalized. The penalty must be a severe disincentive to continuing the practice of subsidizing corporate propoganda.

Sincerely,
R. Bruce Denney

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Danny Johnson

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. The unattributed airing of "video news releases", by TV stations' news departments is increasing. These VNRs are essentially extended commercials for whatever is being sold by those producing them, yet they are presented as if they were news stories, which leads viewers to believe that the information is being independently reported. Television stations have an obligation to the public whose airways they use to clearly distinguish between independently researched and produced news stories, and promotional material supplied by interested parties. A few stations have instituted well-defined policies to prevent airing this material in a misleading manner; many have not. Clearly, an investigation by the FCC is warranted, and clear-cut disclosure requirements, as well as penalties for stations who do not meet those requirements, are necessary in order for this practice to be stopped.

Sincerely,
Mary Quinn

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Amit Shoham

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Stations like KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, and KGO-7 are broadcasting FAKE news. These programs are misleading propoganda and should be illegal. Please act immediately to stop fake news in California, and take action to make these practices illegal.

Sincerely,
Lynn Hunsinger Hunsinger

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Judith Espovich

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. Dont let us be lied to by the press!

Sincerely,
Andre Brundridge

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Your willingness to ignore this travesty of trust is appalling. The FCC was created to hold business to account for it's actions. Even in the massive deregulation you've been promoting you must uphold your end of your job.

You already know this, but viewer trust what they see on the news as the truth. You are promoting a malicious deception if you knowingly allow these VNR to be aired as "news" instead of what they are: slick advertisements for companies taking advantage of local tv stations short on finances, creativity and manpower.

Sincerely,
Charles Homyak

Subject: Stop The Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Jerry Leventer
1375 Mercy Street

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Here is the world we now live in - here is Thomas Jefferson's vision of the Fourth Estate (the press) gone to the highest bidder:

- * Corporate "news" through planted video news releases;
- * Raw lies about Iraq unskeptically delivered to the American people by a corporate-owned press via a lying White House;
- * The FCC itself suppressing its own reports that media consolidation leads to fewer outlets and less local coverage.

If the FCC won't do anything about advertisements planted as news, I guess we the people will get our information about the doings of our Republic from France or Britain instead of local stations.

It's a disgrace. Will the FCC do nothing, as usual?

Please prosecute the illegal actions of these stations, or better yet, revoke their charters.

Sincerely,
Robert Mackie

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Okay, the above is the "Freepress" standard note. What is written next comes from the heart.

I agree with the Reagan ideal that less government is generally better, but there are some minimums I expect. Proper regulation of "public" airwaves (radio, TV, and cell phones) is one of them.

A general sign of the sorry state of current affairs is that cell phone users are charged to pay for phone calls from solicitors and other marketing pests. **THIS IS CRAZY!!** And WE have to take a special effort to put our names on a NO CALL list?

Look, guys, keep the white collar crooks honest, won't you? Crack a few knuckles for advertisements disguised as "news" and sales calls paid for by the person who is unwillingly accosted!

Our government was originally formed "for the common good", not for the good of the greedy and uncouth. Please do your part. Enough is enough!

Dear FCC, Please act immediately to stop fake news in California.

By disguising advertisements as news, stations violate both the spirit and the letter of their broadcasting licenses. This deception is illegal. It's a serious breach of the trust between these California stations and the communities they serve.

These California stations have aired fake news:

KBAK-29 in Bakersfield KHSL-12 in Chico KTLA-5 in Los Angeles* KABC-7 in Los Angeles* KCOP-13 in Los Angeles KMAX-31 in Sacramento* KTXL-40 in Sacramento* KFMB-8 in San Diego XETV-6 in San Diego KPIX-5 in San Francisco* KGO-7 in San Francisco KEYT-3 in Santa Barbara* Sincerely, Martha Evans Oakland, CA

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Jean Crossley

Please act immediately to stop fake news in California. News programs are not true news reporters in any real investigative manner today as it is; however, with the advent of advertising being represented as news is scandalous. I would very much like to have news programs truly report on the newsworthy things that happen around the world every day rather than have the reporters represent celeb. happenings as news. If I was interested in that type of gossip, I would watch other programs that are especially geared to that purpose. I am deeply troubled by the biased and slanted reporting that many news programs tout as news. We need and want unbiased news to be reported to us!!

Sincerely,
Eleanor Pearl

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Michelle Maani

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. Fake news corrupts people's minds. It is a form of brain-washing. Ultimately I believe, it can corrode our system of democracy. People need to know what is honest reportage, and what is advertisement, promotion, or in some cases, polemic.

Whoever reads this message, please use your logic and imagination: this will probably affect you adversely, at some point, if it is allowed to continue. If you have any say in the matter, please add your voice and influence toward stopping this fake news practice.

Sincerely,
Brian Ruppenthal

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Alice Anne Martineau

"Two Strikes and You're Fined" should be the new policy toward this growing trend to substitute advertisements for the little bit of news provided by stations these days.

If it costs hundreds of thousands of dollars to utter one wrong word, certainly an intentionally misleading "newscast" should cost the perpetrators more, since the damage is much more insidious and definitely more dangerous. Paid news takes the place of real news.

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
J. Ray Jones

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Frederick Wenzlaff

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Janiece Adams

It seems to me that the FCC is under the control of Bush's cronies and its time to stop this madness of constantly failing to protect the american people from fake news. The democrats are coming and you had better start cleaning up your act because the truth and your mis-deeds are going to see the light of day. Its time you go to work for the american people and not simply follow the marching orders of Bush and his cronies. Its time to start to act as if this is a democracy and not some kind of Nazi occupied country in which propoganda is government sponsored and a daily overdose is fed to the people. SHAME!!!!

Sincerely,
thomas aldrige

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Edward Zavala

We, as a country, have enjoyed a free and unmonitored press for over a century. Unfortunately, today the media is controlled by a small cartel of very wealthy people who take their marching orders from the Administration and/or big business. They then pass these "talking points" off as "real" news. What ever happened to investigating a story to test its veracity BEFORE airing it to the public? Apparently being "first" to air a story is more important than the truth of the story reported.

Fake news is nothing more than propoganda, designed to mislead the public. Let's stop it immediately!

Sincerely,
Lynn Poos

To whom,

please do everything in your power to facilitate and expedite changes with regard to FAKE NEWS STORIES being aired on California stations. It was unsettling to learn of the Government's deplorable use VNR's (Video News Releases).

As a citizenry we are inundated by 20,000 to 40,000 advertisements each day. When we are seeking truth we should not be finding lies.

please aid in the cessation of this unconscionable and depraved behavior.

sincerely,

Carl W. Chiavaroli

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Fake news is not news, and it discredits your entire organization. I will not listen to your station, if you continue to lie to the public using fake news, distorting facts. It is offensive.

Stop Fake news in CA and the rest of the USA.

Sincerely,
Mary Baggenstoss

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please do your job and act immediately to stop fake news in California.

Sincerely,
James Ross

Please act immediately to stop fake news in California. The dishonesty that seems to be taking over this country is absolutely appalling. Thank God for public television - apparently the only trustworthy source!!! This is taking Fox "News" even a step further into shameful practices. I am disgusted. Perhaps we need a multi million dollar lawsuit against a TV station touting a drug that turns out to be dangerous before the message gets through to the greedy s.o. @# \$%^ & * () !!? Since the immorality of deceit doesn't seem to be a deterrent in corporate America any more, let's hit 'em the only place it seems to count these days -in their pocket!!! Fine 'em and fine 'em big. The FCC needs to crack down on this now!

Sincerely,

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Lorna Kurtz

I am getting so tired of the corporate media monster. The Constitution guarantees my right as an american citizen to a "free press". If the information is biased, I can not make accurate decisions. I would suggest you investigate the abuse of "video news releases" that are nothing more than advertisements made to look like news. Pull their licenses or fine them, but please do something to stop the abuse. I am hate living in this Orwellian environment and it was not what this nation was intended to be.

Sincerely,

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. I want fellow Californians to be able to trust local news to be independent of corporate interests.

Sincerely,
Pam Raney
4308 Alder Drive
San Diego, CA 92116

I feel that it unnaturally biases our free press when news groups pass off independently produced segments as "news".

I have no problem with advertising paid for by special interests who are not affiliated with the broadcasting station; HOWEVER, I do think it is wrong for a station's management executives to use (publicly owned and licensed) airwaves to promote special interests' views at no cost.

Please! America is better than this.

This country was born not only by military revolution when we sacrificed our lives, but also by agreeing our shared ideals, using our greatest asset: a diverse and free press. "Fake News" broadcasts are bad for the future of our country.

-Best Regards

Please act immediately to stop fake news in California. The free press is supposed to be a cornerstone of democracy. Thinking people in this country have been driven away from the 'news' that is aired on the big networks here, and are paying attention to news from the internet, BBC, and public stations like LINK. We are not fooled by this obvious abuse of power. If you want to regain the public trust, start acting like the 'news' isn't a numbers game. Otherwise, continue to loose ratings, as people become more aware and more disgusted.

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Jane Judge

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please take whatever action is necessary to immediately stop these fake news reports from airing on California's television stations. There already is a dearth of good television news programming; so you don't need to compound this regrettable situation by permitting this deception to go on. We as consumers pay for this programming when we pay our cable bill, and we expect to buy real news, not propaganda or advertising disguised as news. That's just plainly fraudulent. Get on it.

Sincerely,
Vincent Ruiz

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

It cannot be sufficiently emphasised how much a violation of the public trust this is. Please act immediately to stop fake news in California.

Sincerely,
Marc Gregory

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

I watch less and less of major station's news due to the lack of integrity such as this. As word gets out more and more Americans will turn their backs on major networks should this abuse and deception be allowed to continue.

Thank you for your attention to this illegal matter.

Sincerely,
Bonnie Carpenter

The citizens of California deserve better than that.

I for one have MCS (multiple chemical sensitivity). I would like you to tell the truth about it. Not have Dean Edell spout off that we have psychological issues or John Stossel who says "Chemicals can't hurt you." Does either person mention that we might be missing or have low levels of certain enzymes or something is wrong with the P450 Pathway or the Blood-Brain Barrier? Give us recognition, not ridicule so we can finally get some help so we can get our "Psychosomatic lazy malingering" rears back to decently paid work again and the things we used to enjoy. (I'm either too tired to do anything anymore or I have to avoid going places).

Also ILLEGAL IMMIGRATION: I had to find out from alternative news about the Maywood Incident, all the illegal alien marches in detail and the Maria Shriver/Watsonville Brown Incident.

And FROSTY WOOLDRIDGE was doing a (coast-to-coast) 21st Century Paul Revere Ride to protest illegal aliens. Did we hear about it on Mainstream Media News? NO!

Finally, please talk about the NORTH AMERICAN UNION (the merging of Canada, the U.S. and Mexico into one nation and the NAFTA Super Highway.

Q: What happens to our constitution?

Please no more fake news. Please keep the public informed on what is really happening. They/We deserve better from you.

Sincerely,
Roxan Tiscareno

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
tippi pollet

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Richard Boyle

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Brunhilde Adams

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. A rash of bogus news on television stations in California has inundated the news. A warning from the FCC has done nothing to stop California stations continuing to air corporate PR videos designed to look like objective news reports.

These stations slipped corporate-sponsored "video news releases" -- segments promoting commercial brands and products -- into their regular news programming. These advertisements were passed off to viewers as legitimate news reports.

By disguising advertisements as news, stations violate both the spirit and the letter of their broadcasting licenses. This deception is illegal. It's a serious breach of the trust between these California stations and the communities they serve.

These California stations have aired fake news:

KBAK-29 in Bakersfield KHSL-12 in Chico KTLA-5 in Los Angeles* KABC-7 in Los Angeles* KCOP-13 in Los Angeles KMAX-31 in Sacramento* KTXL-40 in Sacramento*

KFMB-8 in San Diego XETV-6 in San Diego KPIX-5 in San Francisco* KGO-7 in San Francisco KEYT-3 in Santa Barbara*

Best Wishes,

Colleen Whalen

News, to be of genuine value, needs to be reported as nearly as possible from an unbiased, disinterested point of view. Corporate sponsorship of specific news stories flies in the face of this principle; I hope you will act to prevent sponsored messages disguised as news from appearing in our media.

Thank you

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. As a diabetic myself, I must carefully monitor my health and this of course includes assessing health information that comes through media sources. I am appalled to realize that Pfizer hired someone to give a fake news report. Indirectly this could ultimately result in real harm coming to some unsuspecting person who might act on this fake news report!!!!!!

Sincerely,
Charles Wilkerson

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Patricia Davison

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Yvonne Ramond

Fake news deceives the American public. It violates FCC's sponsorship identification rules.

It is unethical to do this. It shows that your station has no integrity.

We ask children to be responsible in order to have them be their personal best.

YOU are adults and should have already learned about responsibility, integrity, honesty, a sense of fairness.

It harms the public to be deceived by this fake news. Uninformed citizens or citizens unknowingly thinking that your news is credible is wrong.

Please correct the wrongs that you are committing.

It is the right thing to do.

Sincerley,

Sincerely,
Martha Madison

It's horrible when we're forced to question the news as presented because of previous exposure to unexposed VNRs on our television stations. The only way to maintain a free press and the public's trust in the news is to get rid of VNRs produced by self-interested corporations.

Thanks AN

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Herman Osorio

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

The stations that air fake news reports do not at any time during these newscasts identify the corporate sponsors as the source of the material.

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public. Also, it is deceptive.

Sincerely,
David Murray
229 Selby Ranch Road Apt. 4

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Helen Dickey

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
sarah baker

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

I urge you to enforce the FCC rules and penalties banning fake news disguised as real news.

These FCC rules are not an abusive infringement on the freedom of corporations to market their products. They are a basic protection of Americans' rights to expect honest, open, and untainted reporting from their news media.

I request an answer to this email, including, first, what steps you plan to take against the recent rash of fake news about a diabetes drug, and second, an explanation of why the absolutely reasonable FCC disclosure rules continue to be flouted.

Sincerely,
Janet Remington

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Alton Donatto
1625 257th St. #7

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California, and elsewhere. This practice undermines the public's need to be informed without deception, as well as the credulity of the media in general.

If corporations or other special interests want to get the attention of the media consumer they can either buy commercial air time or do something 'worthy' of legitimate news coverage.

Sincerely,
Robert Miller

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

I get a lot of action alerts about various things and I ignore most of them, but the issue of fake news really bothers me. Please take action to do something about it before our lives become one giant infomercial.

Thank you.

Sincerely,
Gila Jones

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

If the FCC requires free press watch groups, and petitions, to ask for pressure to be put on politically motivated ads masquerading as news, then what world is the FCC living in?

Please, for the sake of decency, act now to stop this. FCC, please show honest Americans everywhere that you are serious about fulfilling your role. That role is to uphold democratic values in broadcast, isn't it?

One cannot help but feel foolish having to write, as part of a group petition, to a body such as the FCC, asking it to please do it's job.

Thank you.

Sincerely,
Dean Adams

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

As a California resident, I am appalled that these corporate "video news releases" that have been aired on these local news stations are simply another attempt by these corporations to promote their products of any sort to dupe the unsuspecting public!

It is bad enough that a scheme to monopolize the television and radio stations by these same corporations just to gain more influence and power over the media that belongs to the public when it comes to attaining various informative news reporting and commentaries that effects everyone's lives!

Please act immediately to stop fake news in California.

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Charles Francis

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

I am, frankly, disgusted by the "fake news" that many California broadcasters are passing off as fact. Continued use of such blatantly manipulative broadcast policies will result in my complete abandonment of television as a source of news and entertainment -- there is NOTHING television can provide me that I cannot find elsewhere in other formats (which are often more informative and entertaining).

Thank you for your time.

~R.S.

Sincerely,
Ryan Swets

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Corporate advert campaigns are NOT news -- they are commercials disguised as news, which mislead the public.

Sincerely,
Jeff Graves

You news stations should be ashamed of yourselves, to promote deceptive news reports to people who trust you and regard your opinion with high regard and admiration, because you are supposed to be educated enough to know the truth about what you report.

To me your credibility is already untrustful and you would have to go a long way to prove to me that you are the kind of people who would not just do anything for money, even if that means putting someone else's health and safety at risk.

It is deplorable how you use the power of the media to take advantage of innocent people who trust you.

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

The Center for Media and Democracy and Free Press exposed several California television stations that aired promotional corporate "video news releases" as real news this past April. At that time, 7 stations were identified as having aired these fake news broadcasts.

Since then, seven other stations: KBAK029, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 also aired false reports which at no time identified the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

To carry out its responsibilities to the public, the FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Sincerely,
Sandra Long

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Richard Nieto

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
roger schmidt

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Antone Johnson

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

I still remember when drug companies were not allowed to advertise to eliminate the possibility of "fake" remedies being touted on the air waves or on t.v.

What we have today is one endless stream of medical claims of remedies for anything you care to think about (and some I'd just as soon not see graphically portrayed on t.v.

Videos put out by drug companies and aired as if they were news items and vetted for their accuracy, is a travesty! And t.v. stations that air them ought to be fined.

Sincerely,
Celestine Arndt

All Americans, regardless of political persuasion, depend on TV news to help make decisions in their lives.

Corporate video news releases, masquerading as real news, mis-inform us, at the very least, and may actually kill some of us, in the case of pharmaceutical misinformation.

I would like to see the maximum possible fines levied against the purveyors of this corporate and media deception campaign.

Sincerely,
Michael Brodie

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

A number of local television stations in California have been airing promotional corporate "videos news releases" and passing them off as real news, without identifying their corporate sponsors.

This kind of activity blurs the distinction between information, designed to inform the public and stimulate citizens to critical thinking, and commercial advertising. Such a practice is unethical and undermines journalistic ethics.

The Federal Communication Commission is required to ensure that radio and TV stations identify commercial sponsors. It also has a responsibility to ensure that the airwaves serve the interests of the public. For these reasons, I urge you to investigate the unauthorized broadcast of "fake news" in California and take immediate measures to prevent it.

Sincerely,
Suzanne Cowan

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Jack Morrison

Please act immediately to stop fake news in California. This is cynical propoganda at it's least, and outright fraud at it's worst.

Corporate sponsored briefs must be identified as commercials. The 'talking heads' on TV who perpetrate this activity should be fired as newscasters, and/or labelled 'salesmen or saleswomen'.

We have had too much deception in this country; too much doublespeak.

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Richard Fisel

Please act immediately to stop fake news in California.

I remember when my son was little and said, "I saw it on the news so it must be true." What a shame that I have had to teach him that the news does not always tell the truth or that they do things to help themselves or others at the expense of the public. It is difficult enough to trust what you see or hear, why make it harder, please put an end to fake news.

Sincerely,

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Kit Lofroos

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

I realize Walter Cronkite is before most people's memory, but he is not before mine. People loved him because he didn't waste our time. He reported the news. Period. So we trusted him. If there wasn't much or not much bad news, hey, it was a good day! Something to make you have hope in the human race. Those days are no longer.

I no longer trust ANY television news, which is sad. I no longer watch it.

Perhaps the problem lies in insanely high salaries for the news anchors or top level management. Perhaps it just lies in the general problem with greed in our nation today. Nevertheless, none of these reasons is reason enough to PRETEND to be reporting factual news when actually simply reading a script handed over by a corporate sponsor that's been written as a news broadcast.

It's unethical, it's illegal, and what little trust the public has left in newscasters will disappear. May as well start packing up to move to Hollywood to do fiction movies.

Though I have little hope of the news ever having the high ethical standards of Cronkite's day, it is still on the air -- but only if you act immediately to stop fake news in California. If you don't act to stop this illegal activity, eventually even the least educated people will stop

watching it, especially after their doctors tell them they are fine and to stop watching so much news!

Sincerely,
S. Carpenter

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
David Miller

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Luke Breit

Please act immediately to stop fake news in California. This corporate abduction of what was originally intended to be a free news media for the safety of the people is now being used to promote the interests of corporate bottom lines at the people's expense. This should be illegal and we as a democratic society should not tolerate this gross injustice. Do not compromise journalistic values to expose the truth for dollars, in the end no amount of money will satisfy your guilty conscience.

I don't really care for my own sake; I haven't watched network news for nearly ten years now (except for the occasional local fire coverage.) What worries me is the people that do regularly watch the news thinking they are getting facts. These people vote and live their lives based on what they see and that DOES affect me.

Enough with the fake news.

Sincerely,
Sheryl Iversen

Any employee who does this false reporting deserves to lose their jobs. People don't want to turn on the televisions and radios to listen to garbage like this so you need to act and stop this as soon as possible; if news reporting is the choice, then do it in TRUTH ~ NOT LYING! No wonder so many people are just plain disgusted today with government and now this. You do this for corporations, etc. instead of for Americans to find out the real news in the world. You do a grave injustice also to yourselves by allowing false reporting!

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Act immediately to stop fake news in California. Thank you.

Sincerely,
sherrill futrell

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

This abuse must stop now especially with regard to drug advertisements. so many people die needlessly from various advertised drugs.

The deception needs to be investigated as it violates FCC sponsorship id rules and the broadcasters' responsibility to serve the public.

Here are 7 additional stations which aired faked news reports and did not identify the corporate sponsors.

KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7.

I thank you for your attention to this communication.

Sincerely,
sheila goldmacher

Click here: Definition of Fascism
<http://www.couplescompany.com/Features/Politics/Structure3.htm>

6. Controlled Mass Media - Sometimes the media is directly controlled by the government, but in other cases, the media is indirectly controlled by government regulation, or sympathetic media spokespeople and executives. Censorship, especially in war time, is very common

9. Corporate Power is Protected - The industrial and business aristocracy of a fascist nation often are the ones who put the government leaders into power, creating a mutually beneficial business/government relationship and power elite

In communist Russia, the Tass agency presented propaganda as news. Similarly, in California today, we are deluged with editorials and advertising masquerading as news. Not only is it unethical reporting, but, as in the Pfizer case, it amounts to free advertising for the companies.

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Emil Davidson

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. It degrades the quality of real news to know that some of it is spam. It corrupts information used to make decisions in the real world. There's plenty of venues for advertisement without inserting subliminal ads into community and world altering events. To pass spam off as news is dishonest, to allow spam to be passed off as news is poor conservatorship.

Sincerely,
Bill Cornelius

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Kimberly Hill

It is bad enough when the U. S. Government, through it's "leader" G. W. Bush, lies to the American people in order to involve the country in an illegal invasion of a country; but now to find out that our broadcast airwaves have been taken over by corporation to spread mis-information, it is time to call a complete stop. Please do it now...act immediately to stop corporate or government fake news in California.

Sincerely,
John Richardson

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Robert Huang

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

By disguising advertisements as news, TV stations violate both the spirit and the letter of their broadcasting licenses. This deception is more than illegal. It's a serious breach of the trust between these California stations and we the people in the communities they serve.

One of the stations identified as airing fake news -- KBAK-29, the CBS affiliate -- is here in my home town of Bakersfield, CA. I used to watch it for news. Now I watch KGET-17, the NBC affiliate. I no longer trust KBAK-29 (or its sister station with the same news staff, KBFX-58).

Please act immediately to stop fake news in California. We need to be able to trust our local news programs to be airing real news, not corporate PR videos designed to look like objective news reports.

Sincerely,
Robin Vosburg

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Judith Bakenhus

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Dear FCC,

We need to be the leader in FREE PRESS and more importantly "acurate press".

Recently, KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

It is very vital that the FCC cracks down on news items that are false and misleading. It is manipulative and hurtful to our country.

Please act immediately to stop fake news in California.

Sincerely,

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Lauren Graham

It is getting easier to discern which news is actually advertising. It is hard to sit through commercials let alone news bites paid for by "Big Pharma" or the other bug "Farma (Monsanto et al)" trying to scare people away from organically grown produce. Recently 13 stations in CA. including the ABC affiliates in Redding and Eureka have been purchased by a Megalopy from New York. I watch as little commercial TV as I possibly can.

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

It's difficult enough to get the real news - we don't need programs disguised as "news" paid for by PR firms!

Sincerely,
Kimberly Knapp

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

I had the misfortune to be a viewer during some of ABC's fake newscasts. I will never trust ABC newscasts again. I implore the FCC to investigate fake news abuses and take punitive action against stations that continue to sell advertisements, presenting them as factual newscasts.

Thank you for this needed assistance.

Ann Kristine Hellgren

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
AK Loghry

First we have no outlet in a free society in the larger media. Why? Corporate control beyond any rational necessity save greed. Now we have to watch 'out-sourced' corporate videos posing as news with our tax subsidies? Why is funding Public Television such a scandal when we are equally funding Fox News?

Sincerely,

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Michael Mell Mell

What happened to journalistic integrity? It's a shame that the ideals and values that our incredible country was founded on could be eroded by the decay of our media. What I see going on reminds me of the time I spent in Siberia in 1989-90. One message, one voice...the wrong voice. We have become the tragic characters in our own play. I hope that you all can take a hard look at the effect you are really having on our future. If it your intent to screw up the world...congratulations...job well done. If you are unaware of your doings...please make a u-turn...you're heading for a cliff.

I worked at an NBC Affiliate. My station won an Edward R. Murrow Award for their coverage of America's Biggest Oil Spill. Exxon couldn't buy that story off the air. Instead, they were requested to give back to the community they trashed and sponsor every community event that needed help. They did and some of the damage was healed. Abuse of these mediums is sad. What happened to "We, the people, in order to..."

Sincerely,
Kelly Gallagher

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California. we are not a nation of propaganda. American citizens deserve the truth.

Sincerely,
Christopher Bender

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Michael Terry

Hasn't the public been lied to enough by this administration? Put your partisanship aside and do what the public expects of you as a government regulator of the public's welfare: stop this false news/free advertising distributed to the managers of the public's airwaves by these corporations - who donate heavily to the R's in congress, for the most part.

Please act immediately to stop fake news in California.

Sincerely,
Will. and Hiroko Mattsson

This is a direct threat to this country, frankly far greater than the much touted threat of terrorism.

Facism is a real danger for America now, we're already sliding into a Facist State, with horrible potential consequences. It's time for the FCC to do their job and stop the corporate abuse of the public airwaves. The media organs should be reminded that the airwaves belong to the public, not them.

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
ted leibowitz

Please act immediately to stop fake news in California. Private enterprise has no place inserting supposedly objective news reports into actual news programs.

AND, it is time the FCC passed regulations forbidding larger parent business enterprises from dictating what can and cannot be covered as news. Our Freedom of the Press is rapidly being eroded by business -- and if the FCC stands idly by and allows this to happen, it is called FASCISM -- check it out.

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
John Kaplan, MD

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Fake news misleads viewers and this deceptive practice violates FCC's sponsorship identification rules.

We want the FCC to investigate this abuse to clarify disclosure requirements and to penalize all stations that air fake news.

Sincerely,
Pamala Thomas

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Patrick OBrien

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

One of the foundations of democracy is truthful and reliable news/information so that people can make informed decisions. Masquerading propaganda as news acts to destroy informed decision making and is obviously the intent of either corporations or governments who do so and is one of the reasons the FCC is charged with insuring that our airwaves are used for the public good and not as propaganda sources. The FCC should investigate these false news charges and if true, act to reprimand the stations and that if further events occur, remove their broadcasting license first for a period of time, but if repeats occur, complete loss of license. Please act immediately to stop these fake news in California.

Sincerely,
James Harris

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
sheila schatz

Subject: Still Fake TV News in California

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, seven California stations aired fake news broadcasts.

Since then, seven other stations -- KBAK-29, KHSL-12, KCOP-13, KGTV-10, KFMB-8, XETV-6, KGO-7 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in California, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in California.

Sincerely,
Wm. Robt. Henry

This is the worst kind of manipulation of public opinion. Our democracy is dependent on citizens being well-informed, not the victims of disguised corporate or pressure-group propaganda. We all have a right to know when paid presentations are presented during broadcasts as unbiased news reporting.
