Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th St., N.W., Room TWB-204
Washington, DC 20554

**Re: Recalculation of AT&T Wire Center Calculations
In the Matter of Review of AT&T Inc. and BellSouth Corp. Application
For Consent to Transfer of Control, WC Docket No. 06-74**

Dear Ms. Dortch:

On December 29, 2006, the Commission approved the merger of AT&T and BellSouth, subject to a series of commitments that were attached as an Appendix to the Commission's news release. AT&T hereby provides notice of the fulfillment of its commitment to recalculate the wire center impairment / non-impairment classifications for high capacity loops and transport. The recalculation complies with the rules initially established in the Commission's TRRO order,¹ subject to the following limitations contained in AT&T's UNE commitment #2:

AT&T/BellSouth shall recalculate its wire center calculations for the number of business lines and fiber-based collocations and, for those that no longer meet the non-impairment thresholds established in 47 CFR §§ 51.319(a) and (e), provide appropriate loop and transport access. In identifying wire centers in which there is no impairment pursuant to 47 CFR §§ 51.319(a) and (e), the merged entity shall exclude the following: (i) fiber-based collocation arrangements established by AT&T or its affiliates; (ii) entities that do not operate (*i.e.*, own or manage the optronics on the fiber) their own fiber into and out of their own collocation arrangement but merely cross-connect to fiber-based collocation arrangements; and (iii) special access lines obtained by AT&T from BellSouth as of the day before the Merger Closing Date.

AT&T provided notice to CLECs and effectuated these changes by issuance of Accessible and Carrier Notification letters on January 26, 2007.

Please call me if you have any questions.

Sincerely,

/s/ Jay Bennett
