Why you should choose Cox Digital Telephone® and Voice Mail services

Cox Digital Telephone is a business-grade local phone service designed to manage the full range of voice needs for your business. With Cox Digital Telephone, you get flexible packaging options, a complete array of calling features, and optional Cox Voice Mail services. And your business can enjoy the savings and convenience of getting your local and long distance service from one company, with one bill and one point of contact.

How your business benefits from Cox Digital Telephone

When you choose Cox Digital Telephone, you enjoy a host of benefits:

- **More flexibility.** With a choice of packages and calling features, you can customize your service to ensure you have exactly the tools you need, including DID/DOD, POTs, or Centrex service with integrated voice and fax mail capabilities, and much more.
- **Seamless integration.** Cox Digital Telephone integrates easily with your current telephone equipment, from desktop phones to large PBXs. Or add Centrex service for the benefit of a PBX system without the hassles of one.
- **Easy switchover.** You can keep your current numbers as well as your equipment to make switching easy and hassle-free.
- **Cost-effectiveness.** Choose only the services you need and the features you want with our competitive and simply priced plans and options — plus, save up to 20% compared to the local incumbent.*
- **Easy upgrading.** Add capacity with such options as Cox Connect 1.5 for a T-1 connection or Cox Connect PRI services for ISDN clear channel connectivity. We can also tailor a private line configuration from a DS-1 or DS-3 to OC-N level service to meet your specific needs.
- **Dependable transmission.** Our network protects against communications failure by using fully redundant architecture and battery and generator backup. Plus we monitor our networks around the clock to make sure you're getting the best possible service at all times.

- **Crystal-clear connections.** Quality digital transmission means quality digital sound for all your critical voice communications.
- **More convenience.** Add Cox Business InternetSM to your communications, and enjoy the added convenience and efficiency of one bill from one provider and one local team meeting all your business communications needs.
- **Added services.** Get just what you need, from voice mail and long distance to toll free, directory assistance, and more.

How your business benefits from Cox Voice Mail

Businesses today rely on voice mail service to operate effectively and compete successfully. The challenge is finding truly reliable voice mail service. The solution: Cox Voice Mail. Built to be both dependable and easy to use, Cox Voice Mail delivers service you can trust with your most important messages.

- **Quick and simple.** Access your voice mail quickly in the office or on the road.
- **Dependable.** Cox's service is reliable so you won't have to worry about missing an important message or any messages getting lost.
- **Easy to use.** User-friendly functionality saves you valuable time.

Build a customized business telephone package that fits your needs and budget.

Cox Digital Telephone can provide a customized, cost-effective solution, whatever the size of your business or the scope of your needs — from a small, growing business that wants only a few lines without the capital expenses...to a medium-sized operation requiring phone, fax and voice mail...to a large, established enterprise with a full range of needs including high-volume long distance, toll free and international calling plans.

Standard Cox Voice Mail Features

Cox Voice Mail keeps your business running at maximum efficiency with a complete package of features that are simple to set up and easy to use:

Feature	Function
Automatic Call Back	Allows you to reply to a voice mail message if the caller's number is captured in the voice mail system.
Extended Absence Greeting Unskippable	Creates a message that your callers can't bypass before they leave you a voice mail.
Future Delivery	Enables you to create up to 3 voice mails for delivery up to 15 days in the future.
Greeting Options	Two options are included. The Multiple Greeting option enables you to record up to five different greetings depending on the dialed number. And the Time Dependent Greeting option allows you to have different greetings for weekdays and weekends.
Group Lists	Create up to 15 group lists with 25 numbers each and send messages simultaneously to every member within your voice mail system.
Message Forwarding/Sending	Allows you to forward or send a voice mail to another mailbox within the system.
Message Recovery	Lets you recover deleted messages before you exit the voice mailbox.
Message Redirect	Allows you to forward a message to another mailbox or group list.
Message Replay	Lets you use quick keys that save time by fast forwarding or rewinding messages with the press of a button.
Message Time/Date Stamp	Keeps you informed of the day and time of each call.
Personal Operator	Provides the caller with the option to leave a message, or to touch "0" and be redirected to a predetermined number.
Prompts for Unplayed Messages	This prompt reminds you of any unplayed messages each time you enter your voice mailbox.

Optional Cox Voice Mail Features

Choose from several optional Voice Mail features to further enhance your Cox Digital Telephone service:

Optional Feature	Function
Automatic Message Forwarding	Lets you forward messages received in your mailbox to another mailbox or phone number.
Customized Bulletin Board Applications	Allows you to provide information about your business, such as hours of operation, directions, fax numbers, website address, etc.
Fax Administration	Enables you to receive voice mail and faxes in the same mailbox. You choose to automatically or manually direct faxes to print at a primary or secondary line location.
Message Notification to Pager, Telephone or Cellular Device	Alerts you to new voice mail messages.
Urgent Notification Only	Allows you to limit notification messages to only those marked "Urgent."

Cox FibernetSM Service

Need better point-to-point private line networking? Then you need Cox Fibernet Service. With your choice of five high-volume digital transmissions, Cox Fibernet meets all your needs for PBX-to-PBX interconnections and point-to-point transmissions between local sites. It's also perfect for dedicated access to Internet Service Providers (ISPs). Best of all, Cox Fibernet sets the standard for high speed, high capacity, high quality digital transmissions, all at a cost-effective price. Let your business benefit from all that Cox Fibernet Service has to offer, including:

**Get
Started
Today**

Remember: good communications mean good business. And there's no better way to send communications over your network than with Cox Fibernet Service. Cox Fibernet delivers the features, flexibility and quality you need, all at a competitive price and all backed by both the stability of Cox Business Services and the capabilities of our advanced network. So contact your local Cox Business Services sales representative today. Tell us you want clear, cost-effective and convenient digital transmission service. We'll get you started.

Flexible Service To Fit Your Needs

Your needs are as unique as you are. That's why Cox Fibernet lets you choose the bandwidth that's best for your business. Five transport service levels give you the ability to connect multiple office locations or outside businesses via point-to-point private line networking.

A Fiber Optic Platform For Clarity, Speed and Reliability

No matter which level of bandwidth you choose, you can count on Cox Fibernet Service for a clear, stable connection. That's because Cox designed and built our own fiber-based SONET self-healing ring network with protection switching and our own fiber optic IP backbone. This high-tech, high-speed platform gives you 99.99% network availability and a bit error rate threshold of 10⁻⁶ or better for reliable service, digital-quality sound and unbeatable security. Plus, since our protection switching requires less than 50 milliseconds, you'll get quick, reliable transport services – you can count on it.

Integrated, Cost-Effective Communications

With Cox Fibernet Service, top-quality communications don't have to mean top-dollar costs. Our competitive pricing, discount structures and ability to save you money with national purchasing means that you'll get the speed, capacity and reliability that your network

needs without breaking your budget. So don't let high prices slow down your network – Cox Fibernet Service is the cost-effective way to give your business crystal clear digital voice, video and data transmissions.

A Stable, Experienced Provider

No matter how technologically advanced the network is, your transmission services are only as reliable as the company providing them. That's why it's good to know that Cox Business Services is backed by the financial stability of Cox Communications, one of the nation's largest broadband companies. This proven strength gives Cox Business Services powerful advantages that other providers simply don't have, including state-of-the-art technology and a solid financial foundation. And it gives you the peace-of-mind that only comes from choosing Cox.

Responsive Support and Local Service

We know that your communications are critical to your business. That's why Cox monitors our networks around the clock from our state-of-the-art Network Operations Center (NOC). It's why we provide responsive customer care and local, professional technicians who are ready to help with whatever you need. In short, that's why you can count on Cox.

How It Works For You:

Cox Fibernet lets you choose from five high-volume point-to-point digital transmission services for a customized network connection. Of course, every connection includes the features that make Cox Fibernet the reliable, clear choice for your business. So choose the connection that's right for you – then enjoy the peace of mind that comes from features like these:

Your communications are your lifeline. We understand. That's why Cox built our own facilities-based network – so we can deliver your service over our SONET self-healing fiber optic network, complete with both electronic redundancy and route diversity for greater reliability and uptime. And we didn't just build our own network – we manage it too. Our state-of-the-art Network Operations Center (NOC) monitors our networks around the clock and is staffed day and night with trained professionals working proactively to prevent problems before they affect your service. Our commitment to building and continuously monitoring this high-tech, highly dependable network brings peace of mind that you'll find only with Cox Business Services.

Standard Service Features

- SONET transmission equipment with electronic redundancy
- Self-healing network with route and electronic protection
- Fiber optic rings with route diversity*

Why you should choose Cox Business Internet service

If your business is looking for a cost-effective, broadband data solution that's fast and reliable, look to Cox Business Internet.SM With a full range of bandwidths and prices available, Cox Business Internet service can fit the specific needs of your business and help you operate with greater efficiency. Whether you're a small, growing business or a large, established enterprise, Cox Business Internet can help you communicate, research, download and transfer data with confidence and ease. We have proven expertise in a wide range of industries and specific applications. And we offer a host of business-grade features, from Anti-Spam/Anti-Virus protection and a choice of either Dynamic or Static IPs, to business-class e-mail and more. So if you need to host a server, upload or download large files, connect remote offices and employees, or manage large amounts of business data, Cox Business Services has a scalable solution for you.

How your business benefits from Cox Business Internet service

When your business runs with Cox Business Internet, you enjoy a host of benefits, including:

- **More productivity.** When you access the Internet through our hybrid fiber coax (HFC) network, you'll receive more robust two-way speeds for faster downloads, connections and ultimately, more efficient and reliable communications for your business.
- **More reliability.** You're assured of consistent, reliable data service when you need it because we own and maintain our own nationwide IP network, and we monitor it 24/7.
- **More access.** CoxMailSM web-based e-mail accounts are included as part of your Cox Business Internet service, allowing you access to important business communications from anywhere you have Internet access. And to help keep you protected, CoxMail comes with Cox Anti-Spam and Anti-Virus technology. We take care of all updates, so you'll always have the most advanced protection working for you.
- **More convenience and consistency.** Your Cox Business Internet connection is Always On, so you can avoid the hassles and expense of extra phone lines and dial-up service. And unlike DSL, you'll get more consistent service regardless of your proximity to our facilities.
- **More flexibility and customization.** Choose what makes sense for your business, including the speed of service, static and/or dynamic IPs, the number of IP blocks and the number of e-mails. See back for all the details. And with just one simple call, you can make changes to your service at any time. Plus, in most markets our optional Wireless Transport solution can provide a secure, short-range aerial solution to areas not previously serviceable.*
- **More cost-effectiveness.** Easy scalability means you're getting all the technology and speed you need at a competitive rate.
- **Added services.** Get just what you need with additional Internet services such as web hosting, domain name registration, Virtual Private Networking (VPN) service and more. Plus, a vanity domain for your business-class e-mail is also available so that your business is immediately recognized on the web.*
- **Local customer care team.** With Cox Business Internet service you enjoy the added benefit of a local, dedicated group supporting your business with skillful, knowledgeable and helpful service.

Cox Business Internet package options for your business

Business-Class Support	Local, dedicated customer care, and 24/7 network monitoring provided.
30-Day Satisfaction Guarantee³	Yes

¹Three IP addresses within each block have predetermined assignments. Therefore, there are only 13, 29 and 61 usable addresses in each block.

²Wireless Transport not available in all areas. If Cox is delivering services via wireless network facilities and there is signal interference with such service, Cox may terminate this Agreement if Cox cannot resolve the interference by using commercially reasonable efforts.

³30-day Satisfaction Guarantee period begins from date of installation and entitles customer to a refund of installation fees, modem rental fees and the first month's service fees including taxes and fees. Refund excludes new service activations requiring construction or installation costs incurred by Cox in excess of \$300. Any Cox equipment rented or used by customer must be returned to Cox prior to any refunds or credits being issued.

* Services and features not available in all areas and package options vary by market. Home Office Preferred and Premier service available to residential locations only. Optional services may require additional service fees, equipment fees, and contract requirements. Rates and speeds vary by market. On-site service calls are typically limited to normal business hours. Equipment installed by Cox may vary and installation of networks, Ethernet cards or LAN wiring is not included. Dynamic IP address will be assigned unless a static IP is requested. Actual modem speeds vary. Number of users and network management needs may require Cox to modify upstream and/or downstream speeds. Cox cannot guarantee uninterrupted or error-free Internet service. Early termination liabilities apply. Other restrictions apply. ©2005 Cox Communications, Inc. All rights reserved.

Why you should choose an Enterprise Connectivity Solution from Cox

Does your business need to communicate with remote workers, customers and suppliers across the country? Does your business require a robust, dependable communications solution to power these vital connections? If the answer is yes, then choose Cox Business Services to deliver an Enterprise Connectivity Solution that is both efficient and cost-effective.

Powered by Cox Business Internet,SM we will deliver a wide range of benefits to your business and employees. Whether you need to give remote employees access to a private LAN, replace teleworkers' dial-up connections, connect satellite offices or replace your frame relay network, Cox can deliver a solution to fit your enterprise needs.

Benefits for your business

Your business will experience a range of benefits when you network branch locations and employees through Cox Enterprise Connectivity services.

- **More cost-effective.** By connecting employees and locations remotely to your corporate network, your enterprise can reduce space needs, as well as real estate and associated overhead costs. And by replacing expensive frame relay networks or private line connections with an inexpensive IP/VPN solution, you can keep network costs low.
- **Operations continuance.** With multiple locations and teleworkers in your enterprise, you want to maintain uninterrupted operations and communications, and Cox Enterprise Connectivity solutions deliver. In the event of an energy outage or catastrophic event, your enterprise will continue to function normally.
- **Reduced employment costs.** For any organization with remotely located employees, Cox Enterprise Connectivity services can deliver a range of bottom-line benefits, including reduced absenteeism, turnover and recruiting costs, and employee relocation costs. Plus, your employee pool will be expanded since you'll be able to employ anyone in any region.

- **Easy to deploy.** You'll find our solutions simple and convenient to manage with a dedicated national accounts team, 24/7 network support, web-based tools, and centralized billing options.
- **Added tax benefits.** As an extra bonus, programs at the federal and state levels offer tax benefits and credits to eligible companies who connect employees remotely. These programs reward enterprises for their initiative in helping to reduce traffic congestion and air pollution and in improving their community as a whole.
- **More reliability.** Cox's consistently reliable, self-monitored network provides a dedicated Always-On connection, enabling your employees to get connected and stay connected for improved productivity.

Benefits for your employees

Your employees will benefit as well when you link them to your infrastructure through Cox Enterprise Connectivity services, including:

COX Business ServicesSM

www.coxbusiness.com/connectivity
1-877-669-3038

- **Increased performance.** With reduced commuting time and expenses, you'll help employees reduce distractions and maximize their working time and overall productivity.
- **Greater flexibility.** Connecting employees through Cox Teleworking services helps them to achieve a healthy balance between work and personal time. This will allow them to manage the demands of a busy schedule more effectively.
- **Increased job satisfaction.** By connecting employees remotely, you'll help deliver improved working and lifestyle conditions, which in turn increases employees' job satisfaction, commitment to their work, and loyalty to the enterprise.

*Services not available in all areas. Satisfaction Guarantee does not apply to new service activations requiring construction or installation costs incurred by Cox in excess of \$300.00 or to existing Cox Business Internet customers. Customer must contact their local Cox Business Services office within 30 days of service activation to obtain refund and avoid early termination penalties. Any Cox equipment rented or used by customer must be returned to Cox prior to any refunds or credits being issued.

Why you should choose Cox Carrier Access service

Cox Carrier Access service is the ideal solution for secure and reliable connections to your voice and data customers. Built on our own fiber-based SONET self-healing network, Cox Carrier Access service gives you high-capacity communications that set the standard for high-speed and high-quality digital transmissions at a cost-effective price. Choose the bandwidth you need for dedicated access to your customers and they will get the dependable service they expect, and you'll get the cost-effective prices you need to be more competitive than ever. And since we own and manage our own network, we have complete control over the level of service we provide to you, and can ensure you and your customers have an exceptional experience.

How your business benefits from Cox Carrier Access service

Cox Carrier Access service offers an array of benefits to help your company deliver efficient communications:

- **More flexibility and scalability.** Choose from multiple bandwidths to connect your network to your customer's location, to provide connectivity between your POPs, or to connect you with other serving wire centers. You may also select the right interconnection bandwidth you need to meet your capacity requirements for your demand set. You'll be sure to get the right fit every time.
- **Speed and reliability.** No matter which bandwidth you choose, Cox Carrier Access service can be counted on to deliver a stable connection through our own fiber-based SONET self-healing ring network with route diversity. This high-speed platform features protection switching and its own fiber-optic network, delivering 99.99% network availability and a bit error rate threshold of 10^{-6} or better for impressively reliable service. And with protection switching requiring less than 50 milliseconds, you'll always have quick, reliable transport services at your disposal.
- **Exceptional customer care.** Cox Carrier Access service is a dependable, fully supported connection with 24/7 monitoring provided by our state-of-the-art Network Operations Center (NOC). Plus, we back our service with our responsive and experienced National Accounts Team for all order management and customer care, so we're here when you need us.
- **Cost-effective communications.** Through national purchasing, competitive pricing, and discount structures, we give you all the quality and reliability you want in carrier service at a price that will help your bottom line. It's a cost-effective way to give your business and your customers' business the superior services required to compete in today's marketplace.

We can help you choose the Cox Carrier Access service level that best meets your communications requirements.

Service	Features

Seamlessly link your facilities with a secure Metropolitan Area Network (MAN). Exchange data between remote sites at speeds up to gigabits per second and command your traffic while Comcast Commercial Services manages the connectivity.

Support your varying application needs with real-time traffic prioritization. Deploy performance sensitive, mission critical applications with confidence. Get true any-to-any connectivity and integrate new sites without reconfiguration or additional capital.

Enterprise NETWORK Service creates a reliable meshed network while offering multiple classes of service for varying applications. Choose **Basic Bandwidth** for email and file sharing, **Priority Bandwidth** for critical enterprise applications like CRM and ERP and **Premium Bandwidth** for real time applications like VoIP and video streaming. Comcast can help you determine the exact mix of bandwidth classes and capacity based on your current and future requirements.

Service Features

- Any-to-Any Connectivity – Send traffic to any site within your network through a single Ethernet interface.
- Secure – Reliable data segregation provided by masking your traffic with a unique customer ID on the Comcast network.
- Class of Service Aware – Dynamic traffic delivery with up to three different performance levels.
- VLAN Transparency – Change your VLAN configurations without coordinating with Comcast.
- Web-based Reporting – Monitor connectivity and performance through our secure web portal.

Business Benefits

- Enhanced User Experience – Improve response times of bandwidth-intensive applications and enable new applications like ERP or VoIP.
 - Ease of Use – Connect your Local Area Networks (LAN) without any wide area network (WAN) equipment to purchase.
 - High Availability – Minimize interruptions and keep your business running smoothly. We monitor and support your network 24x7 and have over 99.97% network availability.
 - Optimized ROI – Reduce operating and maintenance costs with less equipment to support.
 - Minimized Risk – Deliver networking capabilities to your internal customers on-time and on-budget.
-

The benefits of a fully meshed regional architecture are simple to calculate and with Comcast Commercial Services it's cost-efficient and easy to integrate and manage complex network architectures.

Comcast Enterprise Network Service is a Cisco Powered Network service. Comcast Enterprise Network Service achieved this designation by maintaining high levels of network quality and by basing our service end-to-end on Cisco equipment—the same equipment that virtually all Internet traffic travels on today.

Telecommunications

Increasing Margins with Lower Transport Costs

Carriers are expanding their networks to complete coverage, increase QoS and grow market share. As a result they face rapidly increasing transport costs. Whether it is local loop charges or backhaul transport, carriers need to quickly address operational expenses to drive fiscal performance.

Carrier face other issues, like having limited configuration options and spotty coverage in residential and rural areas. While most networking companies can deliver in certain areas, very few have a wide footprint. Those that do have broader coverage, usually have rigid pricing structures and inflexible service configurations. Worst of all, you are often buying from a competitor or their parent company

Comcast's services can be deployed quickly and efficiently with minimal wait and bureaucracy than you are typically confronted with when purchasing services from traditional telephone carriers. Comcast We offers carriers a range of services that can support your voice and data transport needs with much lower costs. From traditional TDM, ATM and SONET, to Ethernet and managed wavelength configurations, Comcast has a solution to meet virtually any requirement.

Our pricing structures aren't impacted by LATA boundaries or local loop charges allowing us to offer more flexible terms. We can provision a tailored network that can rapidly scale so you don't need to over-engineer for future demand.

Comcast Commercial Services leverages the massive network of our

- Education
- Financial Services
- Health Sciences
- Hospitality
- Telecommunications
- Small Business
- Medium and Large Enterprise

parent company. This allows you to have managed access on a carrier class transport network designed for broadband applications. Our reach is broad and deep, with capacity in dense urban, sprawling suburban and even many rural areas others can't reach. More importantly, Comcast's Network is not part of the traditional telecommunications infrastructure, allowing Comcast to offer a physically diverse routing.

Comcast Advantage

Lower-cost data and voice transport on a single company's fiber network with broad reach and technical and economic flexibility.

Carrier Benefit

Cost-effective transport that can reach into new markets and scale at a moments notice. A stable and reliable service from a trusted network provider.

Contact us today to find out how your transport needs and our capabilities can be meshed for the technical and financial benefit of your organization.
