Re: CC Docket No. 94-102,  
95% ALI-Capable Handset Penetration Requirement,  
Rule Section 20.18(g)(1)(v).

**Fourth Quarterly Report**

Dear Ms. Dortch:

By *Order (CC Docket No. 94-102)*, FCC 06-25, released March 8, 2006 (the "*Order*"), the Commission granted the Filer, WUE, Inc., an extension of time, up to and including June 30, 2006, within which to comply with the Rule Section 20.18(g)(1)(v) requirement that it achieve a 95% penetration level among its subscribers of ALI-capable handsets. The Filer has elected to deploy a handset-based E-911 solution. This report is submitted pursuant to the requirements of Paragraph No. 16 of the *Order*, and is as follows:

**Item 1: The number and status of E-911 Phase II requests from Public Safety Answering Points ("PSAPs"), including those requests that the Filer may consider invalid:** The Filer has not received any PSAP requests for E-911 Phase II service.

**Item 2: The dates on which E-911 Phase II service has been implemented or will be available to the PSAPs served by the Filer's system:** E-911 Phase II service has not been implemented on the Filer's system. In accordance with Commission requirements, E-911 Phase II service will be implemented within six months following receipt of a valid PSAP request.

**Item 3: The status of the Filer's coordination efforts with PSAPs for alternative 95% ALI-capable handset penetration dates:** Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement.

**Item 4: The Filer's efforts to encourage customers to upgrade to ALI-capable handsets:** Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement; and the Commission's Rules allow the Filer to continue service to up to 5% of units on the system that are not ALI-capable.

**Item 5: The percentage of the Filer's customers with ALI-capable phones:**  
On February 28, 2006, the Filer achieved an ALI-capable handset penetration rate of 95.2%. Accordingly, the Filer has met the 95% ALI-capable handset penetration requirement.

**Item 6: Until the Filer satisfies the 95% penetration requirement, detailed information on the Filer's status in achieving compliance, and whether the Filer is on schedule to meet the revised, June 30, 2006, deadline:** Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement.

Very truly yours,

WUE, Inc.
