CONFIDENTIAL

This is a citizen comment submitted to the FCC regarding the Comcast/Time Warner/Adelphia merger (FCC Docket No. 05-192) Submitted by:

Name: william Gallagher

342 wanamaker ave b
essington, pa 19029

bf0aqzf@comcast.net

COMMENT:

As a resident of Philadelphia, I am writing to challenge the Comcast/Time Warner/Adelphia merger (FCC Docket No. 05-192). This merger will result in Comcast's monopoly control of my city's television, which will make the current problems with my local TV even worse.

If Comcast's hoarding of their broadcasts of our local sports teams are any measure, they would use the increased power of this merger to limit competition, raise their prices, and provide bad customer service.

If you approve the merger, please require Comcast to share its regional sports programming with competing services like satellite television providers, so we will have at least some real choice of pay TV service in Philadelphia.

In your deliberations, please remember that consumers like me are already facing constantly rising prices and poor customer service. Please keep Comcast from growing even larger and more unaccountable.

Thank you for your time and consideration.

COMMENT:

I am writing to challenge the Comcast/Time Warner/Adelphia merger (FCC Docket No. 05-192). This merger will result in Comcast's having less concern with the current problems with my local TV even worse.

If Comcast's hoarding of their broadcasts of our local sports teams are any measure, they would use the increased power of this merger to limit competition, raise their prices, and provide bad customer service.

If you approve the merger, please require Comcast to share its regional sports programming with competing services like satellite television providers, so we will have at least some real choice of pay TV service in the Philadelphia area.

In addition, Comcast should be required to provide service to ALL residents of towns and townships where they hold the cable franchise. In my township, although Comcast holds the exclusive franchise and will not release its sports programming to satellite providers, it will not provide cable to my address because the density is too low. I have been told that, if I want to receive cable from Comcast, I could do so by merely paying FIVE THOUSAND DOLLARS to run the cable. It seems like Comcast is being allowed to have their cake and eat it too.

In your deliberations, please remember that consumers like me are already not being taken care of by Comcast at their current size. Please keep Comcast from growing even larger and more unaccountable.

Thank you for your time and consideration.

COMMENT:

As a resident of Philadelphia, and a dissatisfied Comcast customer, I am writing to challenge the Comcast/Time Warner/Adelphia merger (FCC Docket No. 05-192). This merger will result in Comcast's monopoly control of my city's television, which will make the current problems with my local TV even worse. I was very happy with another satellite company, but my family wanted to be able to watch the Flyers and the Phillies. We are life long residents of Philadelphia, and support the arts, as well as the sports, of the city.

If Comcast's hoarding of their broadcasts of our local sports teams are any measure, they would use the increased power of this merger to limit competition, raise their prices, and provide bad customer service.

Recently, I had the experience of bad customer service, and only because we want to see the Flyers and the Phillies, did I refrain from discontinuing service. Soon, though, I will--just on principle. The fact that I do not have a choice of carriers is outrageous--and I will NEVER choose them for my internet service because they will not sell its SportsNet channel.

If you approve the merger, please require Comcast to share its regional sports programming with competing services like satellite television providers, so we will have at least some real choice of pay TV service in Philadelphia.

In your deliberations, please remember that consumers like me are already facing constantly rising prices and poor customer service. Please keep Comcast from growing even larger and more unaccountable.

Thank you for your time and consideration.

COMMENT:

As a resident of Philadelphia, I am writing to challenge the Comcast/Time Warner/Adelphia merger (FCC Docket No. 05-192). This merger will result in Comcast's monopoly control of my city's television, which will make the current problems with my local TV even worse.

If Comcast's hoarding of their broadcasts of our local sports teams are any measure, they would use the increased power of this merger to limit competition, raise their prices, and provide bad customer service.

If you approve the merger, please require Comcast to share its regional sports programming with competing services like satellite television providers, so we will have at least some real choice of pay TV service in Philadelphia.

In your deliberations, please remember that consumers like me are already facing constantly rising prices and poor customer service. Please keep Comcast from growing even larger and more unaccountable.

Thank you for your time and consideration.
