Re: Notice of Ex Parte Presentation, CS Docket No. 97-80, PP Docket No. 00-67

Dear Ms. Dortch:

Pursuant to 47 C.F.R. § 1.1206, on February 6, 2007, Michael Ayers (for Toshiba America, Inc.), James Morgan (for Sony Electronics, Inc.), Bruce Turnbull (for Matsushita Electric Industrial Co., Ltd.), Jeffrey Lawrence (for Intel Corporation) and the undersigned (for Hitachi, Ltd.) met with Andrew Long, Steven Broeckaert, Michael Lance, Brendan Murray, and Alison Neplok of the Media Bureau.

The purpose of the meetings was to discuss the Digital Transmission Licensing Administrator, LLC, content protection technology known as "DTCP" for various interfaces, including for 1394 and Internet Protocol. The DTLA representatives described the role that DTCP serves in facilitating content protection and interoperability among devices across a home network, and the widespread adoption of DTCP to protect audiovisual content from numerous sources in the United States and other countries. The representatives discussed subjects addressed in the Second Report and Order in relation to DTCP and the Second Further Notice of Proposed Rulemaking in the above-referenced proceeding.

Respectfully submitted,

Seth D. Greenstein
