The Honorable Kevin J. Martin
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: MB Docket No. 06-121; MM Docket No. 04-233

Dear Mr. Chairman:

Local radio and television broadcasters in Harrisburg are looking forward to telling you and your fellow Commissioners about the myriad ways in which they serve listeners and viewers in the Susquehanna Valley. Because the Commission's ownership and localism hearings in Harrisburg and in other markets later this year will focus on local stations and the service they provide to local audiences and communities, NAB believes that comments from local viewers and listeners are the most relevant and valuable to the Commission.

We, of course, want hearings that reflect the complete and full viewpoint of America. One way to improve the dialogue and ensure all Americans have the opportunity to provide their viewpoints would be to have all individuals wanting to provide their personal opinions to the Commission identify the city or town where they reside. Making this simple procedure a standard part of these hearings will enhance the record of the Commission, and will also help ensure that the Commissioners hear from viewers and listeners who actually receive service from stations in the local markets where the hearings are being conducted. Our broadcasters who live and reside in local communities would embrace this wholeheartedly.

Thank you for the opportunity to provide a polite and simple procedure by which the overall experience at the hearings will be enhanced, as well as the record of the Commission in the ownership proceeding.

Please feel free to call me at any time to discuss this or any other issue of concern to local, free, over-the-air broadcasters.

Best wishes.

Sincerely,

David K. Rehr
