RE: In the Matter of Schools and Libraries Universal Service Support Mechanism,
CC Docket No. 02-6, Estimate of Demand for Funding Year 2007

Dear Mr. Navin:

USAC's estimate of demand for Schools and Libraries Universal Support Mechanism discounts for Funding Year 2007 (July 1, 2007 to June 30, 2008) is \$3.69 billion. This estimate is based on total funds requested in 40,354 applications received or postmarked on or before February 8, 2007, the close of the Form 471 filing window. A table showing demand by service type and discount band is attached to this letter.

The total estimated demand for Funding Year 2007 increased approximately \$140 million (3.9 percent) from the estimated demand for Funding Year 2006 of \$3.55 billion. Estimated demand for Priority One funding (telecommunications services and Internet access) is \$1.79 billion, an increase of 6.4 percent, while estimated demand for Priority Two funding (internal connections other than basic maintenance and basic maintenance of internal connections) is \$1.90 billion, an increase of 1.8 percent. Estimated demand for Priority 2 services at the 90 percent discount rate decreased by \$44 million (5.8 percent), to a total of \$712 million.

For Funding Year 2007, 98.4 percent of timely applications were filed online, up from 98.0 percent in Funding Year 2006 and 94.5 percent in Funding Year 2005. In addition, 74.5 percent of Form 471 certifications were filed online, which was essentially the same as Funding Year 2006.

USAC's reviews will ultimately reduce the Funding Year 2007 demand from the estimated level. First, while USAC has made every effort to eliminate duplicate funding requests from this estimate, inevitably we will discover more duplication as we process these applications. Second, USAC's efforts to assure that funds are committed only for eligible services for use by eligible entities with the appropriate discount rate and otherwise consistent with program rules will further reduce the demand.
