

Statement #1:

People with hearing disabilities are human beings, American citizens, consumers, customers, and God believers, to name a few.

Reason #1:

Hearing people are human beings, American citizens, consumers, customers, and God believers, to name a few.

Statement #2:

People with hearing disabilities use captions to gain access to information.

Reason #2:

Hearing people use sounds to gain access to information.

Statement #3:

Programmers pay for the captions in programs.

Reason #3:

Programmers paid for the sounds in programs.

Statement #4:

Therefore, ALL programs must have both captions AND sound.

Reason #4:

NO Captions equals NO Sound!

Amen!
